

Product Catalog

READY MADE. PRO GRADE.

When there's a job to do, the pros turn to Sakrete to get it done right.

Since our founding in 1936 as North America's first bagged concrete mix, the Sakrete brand has grown and diversified to become a leader in concrete construction and repair products.

From our signature High-Strength Concrete to specialty mixes like 5000 Plus Concrete, repair mixes like Fast-Setting Cement Patcher and resurfacing mixes like Flo-Coat, Sakrete products are built on a commitment to quality, performance and superior support. That's our promise for the thousands of dealers and concrete pros who rely on our products every day.

Rip open a bag and find out why we've been the trusted choice in concrete for over 80 years.

CONCRETE MIXES

CONCRETE MIXES

HIGH-STRENGTH CONCRETE MIX

- For applications requiring at least 2" in thickness
- Just add water
- Exceeds compressive strength requirements of ASTM C-387

USE FOR: Walks, footings, slabs, steps, anchoring posts and poles

USE WITH: Cement Colors, Cement Mix Accelerator, Cure'n Seal, Form Tubes

SIZE	UPC #	QUANTITY
90 lb. bag	7-64661-10190-1	42 bags/pallet
80 lb. bag	7-64661-10280-9	42 bags/pallet
60 lb. bag	7-64661-10360-8	56 bags/pallet
50 lb. bag	7-64661-10250 2	80 bags/pallet
40 lb. bag	7-64661-10540-4	80 bags/pallet
10 lb. pail	7-42786-91475-0	4 pails/case

FAST SETTING CONCRETE MIX

- Sets in just 30 minutes
- Sets posts without mixing or bracing. Also, slabs requiring fast set
- Exceeds compressive strength requirements of ASTM C-387

USE FOR: Setting posts or poles without bracing or mixing. Also for slabs requiring fast-set

USE WITH: Cement Colors, Cure'n Seal, Form Tubes

SIZE	UPC #	QUANTITY
50 lb. bag	7-64661-11150-4	56 bags/pallet

MAXIMIZER CONCRETE MIX

- High yield providing more coverage than regular concrete
- 5500 psi
- Less bags to haul and easier to mix
- Exceeds compressive strength requirements of ASTM C-387

USE FOR: Walks, footings, slabs, steps and balconies

USE WITH: Cement Colors, Form Tubes, Cure'n Seal

SIZE	UPC #	QUANTITY
40lb. bag	7-64661-00016-7	56 bags/pallet
80lb. bag	7-64661-00007-5	35 bags/pallet

PRO-X180 CONCRETE MIX

- Full depth use, 1½" (38mm) or greater
- For high early and high overall compressive strength
- Corrosion-inhibited, air-entrained mix
- 3 hours >2,500 psi; 28 days >8,000 psi

USE FOR: Small structural concrete applications

USE WITH: Cement Colors, Cement Mix Accelerator, Cure'n Seal, Form Tubes

SIZE	UPC #	QUANTITY
80lb. bag	7-42786-91340-1	42 bags/pallet

CRACK RESISTANT CONCRETE MIX

- For applications requiring at least 2" in thickness
- Contains fibers for reduced cracking
- Exceeds compressive strength requirements of ASTM C-387

USE FOR: Walks, slabs, steps & footings

USE WITH: Cement Colors, Cement Mix Accelerator, Cure'n Seal, Form Tubes

SIZE	UPC #	QUANTITY
80lb. bag	7-64661-10080-5	4 bags/pallet

5000 PLUS CONCRETE MIX

- High early strength 5000 psi for commercial structural applications and superior durability
- For slabs requiring at least 2" in thickness
- Ideal for concrete countertops (can be used down to 1½" thick)
- Exceeds compressive strength requirements of ASTM C-387

USE FOR: Walks, footings, slabs and steps

USE WITH: Cement Colors, Cement Mix Accelerator, Cure'n Seal, Form Tubes

SIZE	UPC #	QUANTITY
60lb. bag	7-64661-10660-9	56 bags/pallet
80lb. bag	7-64661-10380-6	42 bags/pallet

SAND MIX (TOPPING & BEDDING MIX)

- Repairing and topping damaged concrete surfaces in layers 1/2" to 2" thick
- Professional strength 5000 psi

USE FOR: A bedding mix for flagstone, slate and brick walkways or shower mortar beds

USE WITH: Concrete Bonder & Fortifier

SIZE	UPC #	QUANTITY
80lb. bag-white	7-64661-12160-2	42 bags/pallet
80lb. bag	7-64661-12080-3	42 bags/pallet
60lb. bag	7-64661-12160-2	56 bags/pallet
40lb. bag	7-64661-12240-1	80 bags/pallet

FLOOR MUD*

- Can be dry-packed or used as a thick mortar bed
- Ideal for shower pan installations

USE FOR: Thick setting beds under ceramic or quarry tiles, shower receptors, roof decks, decks & stairs

SIZE	UPC #	QUANTITY
50 lb. bag	7-64661-00407-3	56 bags/pallet

*Sold as Deck Mud in some markets

MORTAR, STUCCO & MASONRY MIXES

TYPE-S MORTAR MIX

- A high strength mortar mix for laying brick, block and stone
- Can be used as a stucco scratch and brown coat
- White is available in Florida
- Packaged as “Mortar/Stucco Mix” in Florida

USE FOR: Load-bearing walls & construction above & below grade; laying brick, block & stone; stucco applications

USE WITH: Cement Colors

SIZE	UPC #	QUANTITY
80 lb. bag-gray	7-64661-13080-2	42 bags/pallet
60 lb. bag-gray	7-64661-13160-1	56 bags/pallet
40 lb. bag-gray	7-64661-13240-0	80 bags/pallet
40 lb. bag-white	7-64661-13940-9	80 bags/pallet
10 lb. pail	7-42786-91474-3	4 pails/case

TYPE-N MORTAR MIX

- A regular strength mortar mix for laying brick, block and stone

USE FOR: Laying brick, block, or stone in above grade walls; making repairs to mortar joints

USE WITH: Cement Colors

SIZE	UPC #	QUANTITY
80 lb. bag	7-64661-13380-3	42 bags/pallet
60 lb. bag	7-64661-13460-2	56 bags/pallet
40 lb. bag	7-64661-13540-1	80 bags/pallet

STONE VENEER MORTAR

- Polymer modified for high-performance adhesion of mortar and artificial stones to substrate
- Consistent quality from bag to bag means less waste and problems associated with on-site mixing

USE FOR: Setting and grouting artificial stone

USE WITH: Cement Colors

SIZE	UPC #	QUANTITY
80 lb. bag	7-64661-20580-7	42 bags/pallet
50 lb. bag	7-64661-20550-0	56 bags/pallet

SURFACE BONDING CEMENT

- Fiber reinforced to reduce cracking
- Available in white and gray

USE FOR: Building mortarless block walls and reinforcing existing masonry walls

USE WITH: Cement Colors

SIZE	UPC #	QUANTITY
50 lb. bag-white	7-64661-13750-4	30 bags/pallet
50 lb. bag-gray	7-64661-13850-1	30 bags/pallet

CEMENTS

PORTLAND CEMENT TYPE I-II

- For use in custom concrete mixes and portland/lime mortars (Type II/V Portland Cement is available in the western U.S.)

USE FOR: Custom blended concrete mixes

USE WITH: Multi-Purpose Sand, All-Purpose Gravel or Pea Gravel

SIZE	UPC #	QUANTITY
47 lb. bag	0-88946-00256-2	64 bags/pallet
94 lb. bag	0-88946-00140-4	35 bags/pallet

MASONRY CEMENT

- Masonry cement for use in custom mortar and stucco mixes
- Available in Type-N and Type-S

USE FOR: Custom mortar and stucco mixes

USE WITH: Masonry sand

SIZE	UPC #	QUANTITY
70 lb. bag-Type N	0-88946-00141-1	56 bags/pallet
75 lb. bag	7-64661-90025-2	45 bags/pallet
78 lb. bag-Type S	0-88946-00257-9	42 bags/pallet

CONCRETE AND MASONRY REPAIR

TOP ‘N BOND® CONCRETE PATCHER

- Long-lasting repairs to steps, slabs, walks and most concrete surfaces
- Fortified with polymers for superior bonding strength

USE FOR: Resurfacing and patching of worn, uneven or chipped concrete surfaces

SIZE	UPC #	QUANTITY
40 lb. bag-gray	0-50605-00144-5	36 bags/pallet
40 lb. bag-white	7-64661-16740-2	36 bags/pallet
20 lb. pail-gray	7-64661-15120-3	Each
10 lb. pail-gray	0-50605-00143-8	4 pails/case

FLO-COAT® CONCRETE RESURFACER

- Makes old, worn concrete look like new
- Flowable for easy application with lightweight squeegee
- Fortified with polymers for superior bonding strength

USE FOR: Resurfacing worn, spalled or chipped concrete surfaces

SIZE	UPC #	QUANTITY
20 lb. pail	7-64661-50007-0	Each
40 lb. bag	7-64661-17440-0	36 bags/pallet

CONCRETE AND MASONRY REPAIR

CONCRETE AND MASONRY REPAIR

FAST SETTING CEMENT PATCHER

- Rapid setting patching material that can be molded or sculpted into place
- A fast setting patch material for concrete repairs from 1/4" to 2"

USE FOR: Rapid repairs of concrete steps, slabs, walks, drives and patios

USE WITH: Concrete Bonder & Fortifier

SIZE	UPC #	QUANTITY
40 lb. bag	7-64661-17040-2	36 bags/pallet
20 lb. pail	7-64661-17720-3	Each
10 lb. pail	7-64661-17110-2	4 pails/case

LEAK STOPPER HYDRAULIC CEMENT

- Rapid setting hydraulic cement - stops leaks underwater
- Available in white and gray

USE FOR: Instant repairs and leak stoppage in pools or other active leaks in concrete and masonry

SIZE	UPC #	QUANTITY
50 lb. pail-gray	7-64661-17550-6	36 pails/case
20 lb. pail-gray	7-64661-17620-6	Each
10 lb. pail-gray	7-64661-17610-7	4 pails/case
10 lb. pail-white	7-64661-17710-4	4 pails/case

FAST SETTING SELF-LEVELING RESURFACER

- Applications from a feather edge and up to 1 inch in thickness
- ASTM C109 = 7,000 psi (28-day compressive strength)
- Can be used as an underlayment or wear surface
- Sets in less than 90 minutes, walk-on in 4 hours

USE FOR: Resurfacing interior or exterior concrete slabs

SIZE	UPC #	QUANTITY
50 lb. bag	7-42786-91342-5	56 bags/pallet

EZY-PIPE PATCH

- Vertical, horizontal and overhead repairs
- Sets in 15 minutes
- High early strength

USE FOR: Filling pipe and box culvert joints, patching cracks and chips in any concrete surface

SIZE	UPC #	QUANTITY
50 lb. bag	7-42786-91350-0	56 bags/pallet

TROWEL GRADE LEVELER & UNDERLAYMENT

- Use over concrete, cementitious backer board, exterior grade plywood, embossed vinyl tile with Bonder and Fortifier
- Use under asphalt tile, vinyl flooring, carpet, wood flooring, especially around doors
- Fast setting
- Can be feather edge applied

USE FOR: Leveling interior floors

SIZE	UPC #	QUANTITY
25 lb. bag	7-64661-10525-1	36 bags/pallet

SELF LEVELING UNDERLAYMENT

- Portland cement based
- Provides a smooth surface
- Applications up to 1" (25 mm) in a single pour
- Rapid curing - Accepts non-moisture sensitive tile and stone in 24 hours
- Accepts floor covering sheet goods in 3 days

USE FOR: Leveling interior floors

SIZE	UPC #	QUANTITY
50 lb. bag	7-64661-10525-1	36 bags/pallet

CONCRETE CRACK FILLER

- Ready to use, no mixing required
- Fill and seal cracks in concrete up to 1/2" wide and 1/4" deep
- Flexible and durable material

USE FOR: Filling and sealing cracks to prevent intrusion of water

SIZE	UPC #	QUANTITY
1 qt. bottle	7-64661-10550-3	30 bottles/pallet

REPAIR MORTAR

- Easy to mix. Simply add water, reseal and knead the mix in the bag
- Convenient for small patches, requiring no other tools. Just add water

USE FOR: Repairing small cracks or patches in concrete or mortar.

SIZE	UPC #	QUANTITY
3 lb. pouch	7-64661-50053-7	12 pouches/case

POLYURETHANE NON-SAG SEALANT

- A one component sealant which forms a flexible joint with excellent adhesion
- Specially designed for vertical or overhead surfaces
- Non-sag formula

USE FOR: Repair cracks or fill joints in horizontal or vertical concrete surfaces

SIZE	UPC #	QUANTITY
10.1 oz. tube	7-64661-50009-4	12 tubes/case

POLYURETHANE SELF-LEVELING SEALANT

- A sealant which forms a flexible joint with excellent adhesion
- Self leveling

USE FOR: Repair cracks or fill joints in horizontal concrete surfaces

SIZE	UPC #	QUANTITY
10.1 oz. tube	7-64661-50008-7	12 tubes/case

CONCRETE AND MASONRY REPAIR

GROUT & ANCHORING PRODUCTS

PRE-MIXED CONCRETE PATCH

- Ready to use
- Easy to apply
- Offers superior adhesion

USE FOR: Vertical and horizontal repairs in concrete and masonry surfaces

SIZE	UPC #	QUANTITY
1 qt. tub	7-64661-05045-2	12/case

POLYURETHANE CONSTRUCTION ADHESIVE

- A one component adhesive with superior bonding capability
- Can be used to fill cracks in concrete

USE FOR: Bonding concrete, stone, brick, wood, roof tiles, ceramic tiles and metal

SIZE	UPC #	QUANTITY
10.1 oz. tube	7-64661-50012-4	12 tubes/case

CONCRETE REPAIR TUBE

- Siliconized, acrylic latex for filling cracks in masonry and concrete surfaces
- Helps protect against damaging freeze/thaw cycles

USE FOR: Filling and sealing cracks in concrete structures and slabs

SIZE	UPC #	QUANTITY
10.1 oz. tube	7-64661-50021-6	12 tubes/case

MORTAR REPAIR TUBE

- Siliconized, acrylic latex caulking in cracks in masonry
- Helps protect against damaging freeze/thaw cycles
- Textured mortar look

USE FOR: Repairing mortar joints in brick or block

SIZE	UPC #	QUANTITY
10.1 oz. tube	7-64661-50016-2	12 tubes/case

CONCRETE GLUE

- Eliminates the need to roughen or score old surfaces
- May be surface applied or used as part of the mix water

USE FOR: Bonding new concrete to existing concrete, mortar or gypsum plaster. As an additive to increase bond in stucco.

SIZE	UPC #	QUANTITY
1 qt. bottle	7-64661-00361-8	12/case
1 gal. bottle	7-64661-18764-6	4/case

PRECISION NON-SHRINK GROUT

- Meets ASTM C1107 at plastic, fluid and flowable consistency
- Non-metallic, non staining
- Pumpable for easy placement

USE FOR: Setting machinery or base plates where shrinkage is not acceptable. Filling voids under slabs or any area where access is limited and a fluid material is needed.

SIZE	UPC #	QUANTITY
50 lb. bag	7-64661-50041-4	30 bags/pallet

BOLT & RAIL ANCHOR CEMENT

- Sets in 30 minutes to a super tight grip
- Use as a general purpose grout material

USE FOR: Anchoring bolts and railings with extra strength

SIZE	UPC #	QUANTITY
50 lb. pail	7-64661-18050-0	36
20 lb. pail	7-64661-18120-0	Each
10 lb. pail	7-64661-18110-1	4 tubs/case

RAPID SETTING ANCHORING EPOXY

- Sets within 5 minutes
- Will not shrink upon curing
- Solvent free with no volatile compounds

USE FOR: Anchoring bolts or other objects in concrete and masonry. Fill cracks in concrete.

SIZE	UPC #	QUANTITY
8.6 oz. tube	7-64661-00221-5	12 tubes/case

HIGH-STRENGTH ANCHORING EPOXY

- Exceptionally strong and hard once cured
- Excellent thread lock
- Solvent-free with no volatile compounds
- Will not shrink upon curing

USE FOR: Anchoring bolts or other objects in concrete and masonry. Fill cracks in concrete.

SIZE	UPC #	QUANTITY
8.6 oz. tube	7-64661-00050-1	12 tubes/case

GRAVEL AND SAND

GRAVEL AND SAND

ALL-PURPOSE GRAVEL

- Appropriately sized gravel to provide drainage to any concrete project
- Landscaping projects and custom concrete mixes

USE FOR: Ideal as a drainage base for footings, posts and slabs

SIZE	UPC #	QUANTITY
60 lb. bag	7-64661-15260-6	56 bags/pallet
0.5 cu. ft. bag	7-64661-15250-7	56 bags/pallet

MULTI-PURPOSE SAND

- A screened and graded coarse sand for general applications

USE FOR: Landscaping, custom cement mixes, traction and erosion control

SIZE	UPC #	QUANTITY
60 lb. bag	7-64661-15060-2	56 bags/pallet
0.5 cu. ft. bag	7-64661-15050-3	56 bags/pallet

PAVER SET™ POLYMERIC SAND

- Hardens to fill joints between pavers
- Polymer-fortified to adhere sand in place
- Available in gray and tan (availability varies)

USE FOR: Long-lasting solution to weed growth and wash-out in paver joints

SIZE	UPC #	QUANTITY
60 lb. bag	7-64661-15460-0	56 bags/pallet
50 lb. bag	Gray – 7-64661-15450-1	56 bags/pallet
50 lb. bag	Tan – 7-64661-15451-8	56 bags/pallet
40 lb. pail	Tan – 7-64661-15440-2	36 pails/pallet
40 lb. pail	Gray – 7-64661-70015-9	36 pails/pallet

PERMASAND® POLYMERIC SAND

- Hardens to fill joints between pavers
- Polymer-fortified to adhere sand in place
- Available in gray and tan (availability varies)

USE FOR: Long-lasting solution to weed growth and wash-out in paver joints

SIZE	UPC #	QUANTITY
40 lb. pail	Tan – 5-06050-70004-9	36 pails/pallet
40 lb. pail	Gray – 7-64661-70500-0	36 pails/pallet

PAVER BASE STEP 1 & LEVELING SAND STEP 2

- Graded to improve compaction
- Base for interlocking pavers, brick, natural stone, concrete, and stepping stones

USE FOR: Bedding base under pavers, stepping stones, bricks, and natural stone

SIZE	UPC #	QUANTITY
0.5 cu. ft. bag	7-64661-00317-5	56 bags/pallet
0.5 cu. ft. bag	7-64661-00316-8	56 bags/pallet

ALL-NATURAL PLAY SAND

- 100% natural, not manufactured

USE FOR: Sand boxes, landscaping, pet areas

SIZE	UPC #	QUANTITY
50 lb. bag	7-64661-15650-5	56 bags/pallet

TUBE SAND

- Re-sealable, durable bag for bad weather conditions and indoor/outdoor storage
- Additional ballast in the back of a car or pick-up truck
- Flood control and traction

USE FOR: Weight for winter driving conditions or for holding down goals, backboards, etc.

SIZE	UPC #	QUANTITY
70 lb. bag	0-50605-00693-8	42 bags/pallet

COMMERCIAL SAND - FINE, MEDIUM, & COARSE

- Clean, dried, constant, graded sand

USE FOR: Epoxy systems, specialty cement mixes, floor leveling, pool filters and landscaping

SIZE	UPC #	QUANTITY
50 lb.	FINE – 7-64661-00801-9	56 bags/pallet
50 lb.	MED. – 7-64661-00802-6	56 bags/pallet
50 lb.	COARSE – 7-64661-00803-3	56 bags/pallet
100 lb.	MED. – 7-64661-00396-0	30 bags/pallet

MASON SAND

- Washed and graded sand
- Properly graded for use in custom mortar mixes

USE FOR: Landscaping, gardening applications, base material for pavers and stepping stones

SIZE	UPC #	QUANTITY
50 lb. bag	7-42786-91359-3	56 bags/pallet
80 lb. bag	7-64661-15280-4	56 bags/pallet

BONDING, CURING & SEALING AGENTS

CLEANERS

CONCRETE BONDER & FORTIFIER

- Brush from the bottle for bonding applications to old concrete or masonry surfaces
- Use as an additive to concrete mix to increase its adhesion, impact strength and abrasion resistance
- Dilute to use as an admixture

USE FOR: Improving the bond of new concrete to old concrete

USE WITH: Sakrete Sand Mix and Sakrete Fast Setting Cement Patcher

SIZE	UPC #	QUANTITY
1 gal. bottle	7-64661-18564-2	4/case
1 qt. bottle	7-64661-18616-8	12/case

CONCRETE CURE 'N SEAL

- Water resistant, acrylic coating
- Use as a clear finish to protect surfaces and the curing of concrete

USE FOR: Improving curing and protects concrete

USE WITH: Sakrete Concrete Mixes

SIZE	UPC #	QUANTITY
1 gal. bottle	7-64661-19064-6	4/case

CEMENT MIX ACCELERATOR

- Speed the set time of concrete and mortar
- Ideal for cold weather applications
- Contains calcium chloride

USE FOR: Speeding the set time of concrete and cement mixes

USE WITH: Sakrete Concrete Mixes

SIZE	UPC #	QUANTITY
1 gal. bottle	7-64661-19264-0	4/case

CONCRETE PAVER SEALERS

- Adds UV resistance while applying a darker look to pavers
- Protects pavers from moisture penetration and prevents yellowing
- Dries fast for an easy application and safe for plants and pets

USE FOR: Masonry/stucco, cinder block, porous concrete floors, brick pavers, decorative stone and pre-cast concrete

SIZE	UPC #	QUANTITY
Natural Look 1 gal. bottle	7-64661-50038-4	4/case
Wet Look 1 gal. bottle	7-64661-50039-1	4/case

CONCRETE DISSOLVER

- Safe environmentally friendly liquid alternative to aggressive acid concrete removers
- Use on: tools, trowels, molds, concrete saws, glass, vehicles, concrete splashed siding and more

USE FOR: Remove dried on cement, concrete or mortar from most surfaces

SIZE	UPC #	QUANTITY
28 oz. bottle	0-50605-18222-9	12/case
1 gal. bottle	7-42786-91358-6	Each
5 gal. bottle	0-50605-18225-0	Each

CONCRETE & ASPHALT CLEANER

- Removes or lightens grease and oil stains from blacktop and concrete surfaces
- Non-toxic cleaner - simply rinse with water

USE FOR: Blacktop or concrete surfaces such as driveways, patios, etc.

SIZE	UPC #	QUANTITY
1 qt. bottle	7-64661-32016-6	12/case

BLACKTOP MAINTENANCE AND REPAIR

U.S. COLD PATCH

- Easy to apply; can be compacted with a vehicle tire, drive on immediately after installations
- Will not track (no black sticky mess)
- Made from over 95% recycled materials
- Odorless material that virtually eliminates the harmful VOC vapors found in other blacktop cold patch products
- Use in wet or dry conditions, in any temperature

USE FOR: Permanent repair to potholes and cracks in blacktop

SIZE	UPC #	QUANTITY
50 lb. bag	7-64661-16450-0	56 bags/pallet

ALL-WEATHER BLACKTOP PATCH

- Ready-to-use, workable mix
- High performance patching material with good compaction
- Use in wet or dry conditions, in any temperature
- Low VOC

USE FOR: Patch and repair of potholes in blacktop walks, drives and parking lots

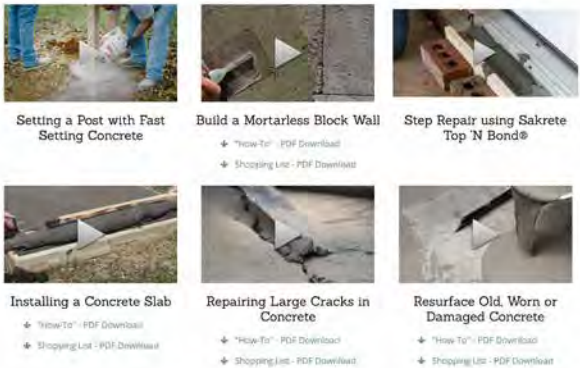

SIZE	UPC #	QUANTITY
60 lb. bag	7-64661-16060-1	56 bags/pallet

FAQs

Q. How long does it take for most **CONCRETE AND MORTARS** to completely cure?

A. **28 days.**

Q. Can I use **HIGH-STRENGTH CONCRETE MIX** for setting a fence post without mixing prior to placement?

A. **No, only the FAST SETTING CONCRETE MIX or NO MIX FENCE POST MIX should be used in that application.**

Q. What is the minimum temperature for pouring or using **CEMENTITIOUS PRODUCTS**?

A. **Air, mix and substrate temperatures should be between 40-90°F during and for 24 hours after application.**

Q. What is the minimum width and depth required for using **POLYMERIC SAND**?

A. **Minimum joint width is ¼" and the full depth of the paver is the minimum depth.**

Q. Can I use **POLYMERIC SAND** with Flagstone?

A. **No, Flagstone is typically unstable. The joints would not be uniform and are likely to have areas larger than our maximum 1½" joint width.**

Q. Can I paint **MORTAR REPAIR/CONCRETE CRACK FILLER**? If so how long do I need to wait after applying?

A. **Yes, with a latex based paint. 7 days.**

Q. Can I paint the **POLYURETHANE CAULKING**? If so how long do I need to wait after applying?

A. **Yes, with a latex based paint but only on vertical surfaces. 7 days.**

Q. Can I use **TYPE S MORTAR** for installing a custom shower pan?

A. **No, our TYPE S MORTAR is not meant for mortar beds or custom shower pan installations. We recommend using FLOOR MUD or SAND MIX in this application.**

Q. Can I use **CONCRETE MORTAR DISSOLVER** to remove tile thinset or grout from shower tiles or brick?

A. **No, the product could leave etching on the tile/brick face.**

Q. Can any **SAKRETE REPAIR PRODUCTS** be applied over paint?

A. **No, cementitious materials will not adhere to painted surfaces.**

HELPFUL TIPS

- Always add specified amount of water in your mixing container first and then add the bagged product during the mixing process.
- Cover repairs/pours with plastic to retain moisture to aid in the curing process. This is especially helpful in the summer months.
- Proper surface preparation is just as critical as choosing the right product.
