

PORTLAND STONE WARE CO.

— WALLSTONE —

Wallstone

In the colonial era, stonewalls were built to define property lines. Today, they act as retaining walls, property enhancements and boundaries. Portland Stone Ware has sourced stone from quarries and fields all over the East.

Go with a simple PA Fieldstone, or add some color with another selection of our Wallstone. The unmatched color and texture of natural stone will define your landscape and last forever.

Please Note: Most pallets weigh approximately 1 ½ tons. Approximately 12-14 cubic feet per ton.

for additional Wallstone available for order.

Retaining Wall

A structural element designed to hold back soil in sloped landscapes. This type of wall is typically built in and/or around patios, yards, gardens, driveways and stairs.

Freestanding Wall

A decorative, functional element that adds visual appeal to any outdoor space. This type of wall can border property lines and divide sections of land.

PORTLAND STONE WARE CO.

Portland Stone Ware is a wholesale distributor, servicing the lumber and masonry industry since 1847.

Disclaimer

Natural stone is a product of nature; variations in color, pattern, texture and veining is unavoidable. The uniqueness of each stone is what makes it beautiful. The purchaser acknowledges that stone ordered at different times is not guaranteed to match the original stone. Photos are a representation and colors will vary.
