

ZERO SLIP™

Proprietary Anti-Slip Technology

Through extensive research, testing, and development, **MSI's Arterra** pavers have been engineered with **ZERO SLIP** technology!

Arterra® Premium Porcelain Pavers are where safety and beauty meet. This leading-edge collection of porcelain pavers deliver the desired look of natural stone with the peace of mind. This proprietary technology provides exceptional slip-resistance on dry & wet floors, far exceeding the industry standard.

HOW IS SLIP RESISTANCE DETERMINED?

DCOF, or dynamic coefficient of friction, is a measurement that determines how much friction there is on wet, level floors when walked upon. The results of DCOF testing help us determine the likelihood of whether a tile surface could contribute to someone slipping and/or falling.

BENEFITS - WHY ARTERRA

Low maintenance – Easy to clean with a water hose or pressure washer.

Strong – Superior strength and impact resistance.

High wear rating – The glazed surface is fired at 1200° F, ensuring a hard surface that is resistant to wear.

Warranty – Lifetime Limited Residential Warranty.

Stain resistant – Because of its extremely low moisture absorption, MSI Porcelain Pavers have a high resistance to stains.

ZERO SLIP
Proprietary Anti-Slip Technology
Slip Resistant – The surface texture is designed to have a high slip resistance, even when wet.

UV Resistant – The glazed surface is baked on, ensuring the color will remain intact even after years of being in the sun.

Freeze Thaw Resistant – MSI Porcelain Pavers are virtually impervious to water and the properties don't change with temperature, thereby making the pavers freeze thaw resistant.
