ABOUT SRW PRODUCTS

Welcome!

Over the past 35 years, we've become leaders in the hardscape industry because we know it's people & partnerships that truly matter. We're family-owned & operated by three generations & with that, we have learned how hardscapes bring people together.

Our dealer-based company continues to thrive because of our team's commitment to helping your business succeed. Keeping to this goal, we have invested & continue to invest in fortifying our infrastructure, expanding our staff, manufacturing, production, & distribution centers to quickly respond to the needs of our customers from coast to coast.

Our success is partnered with yours. Our high-quality hardscape & landscape accessories products ensure the triumph of our partnership.

We provide so much more than products because we believe in people & partnerships. Our Sales Team & Customer Service Team have formed long-lasting relationships by getting to know our customer's individual needs and providing customized solutions.

We are unmatched in the industry with our Product Management Team and their expertise in product knowledge & developing innovative products. We have created excellent educational materials. In addition, they are available to provide you with expert consultation.

Our company continues to grow, & we remain both innovative & comprehensive in our product base. We appreciate your business & are incredibly grateful for future opportunities to partner with you. At SRW Products, we promise to continue focusing on our key priorities: PEOPLE, PRODUCTS, & PARTNERSHIPS.

DEALER NETWORK

Our products are available from leading hardscape suppliers across the United States & Canada. Over 5,000 dealers turn to SRW Products for the consistent quality & performance they have come to trust.

SRW Products Distribution - U.S. & Canada

SRW PRODUCTS: SOLID SOLUTIONS FOR BETTER HARDSCAPES

After all, we are SRW Products.
No one does it better!

SRW PRODUCTS: SOLID SOLUTIONS FOR BETTER HARDSCAPES

NEW EDGING

ULTRALOK PAVER RAIL™

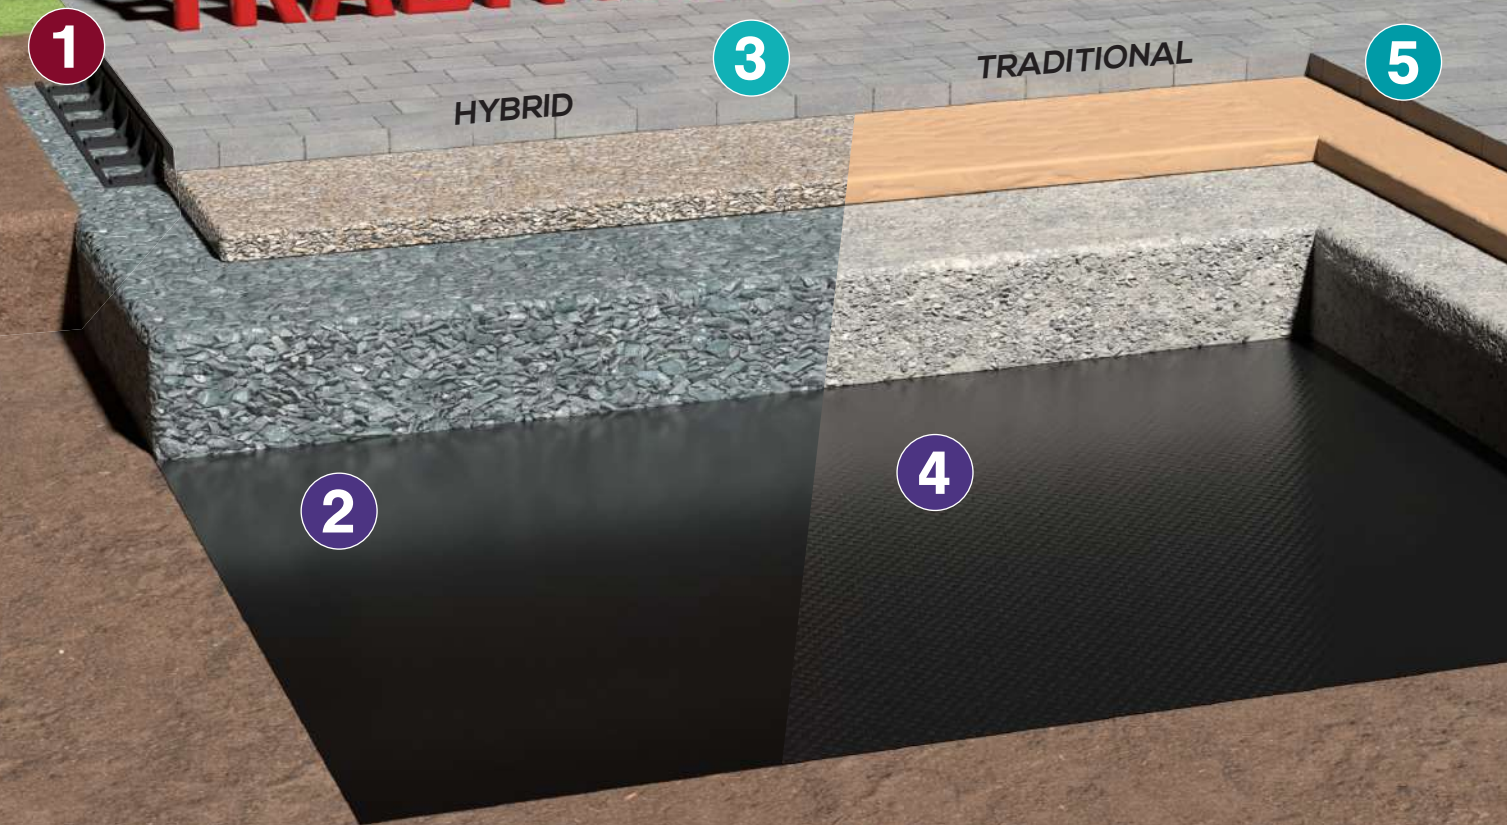

Our **UltraLok™** edge restraint system is designed to provide strong & stable connections between pieces, with reinforcing pillars & reinforced spike holes for unmatched strength & stability. The **UltraLok™** footprint allows for proper drainage & encourages root development along the edge of the project. It can be easily used for both straight & curved areas.

NEW PRODUCT

SRW PRODUCTS: SOLID SOLUTIONS FOR BETTER HARDSCAPES

Recommended Products For

HYBRID OR TRADITIONAL BASE

1

ULTRALOK PAVER RAIL™

An injection-molded edge restraint, designed to provide a strong and stable connection between pieces. It can be easily used for both straight & curved areas.

Page 15

2

PERMEABLE 350

An excellent choice for permeable paver systems where high strength & water flow are needed simultaneously.

Page 59

3

WETLOK™

Resin based jointing material for all types of paving projects with joints of 1/8" - 5".

Page 11

4

SS5

Use to separate the base from the sub-base which increases strength.

Page 58

5

PAVERMATE Z3™

Fill paver joints of 1/16" - 2" with polymeric sand to create strong, durable & long-lasting results.

Page 11

FAST ACTING

WEATHER PROOF

EASY INSTALLATION

WIDE JOINTS

PAVERMATE Z3™

FEATURES

- ▶ **Zero Haze:** Clear polymer technology sets you up for a haze-free project.
- ▶ **Zero Dust:** Specially mixed to bind polymers & sand, reducing fines & creating a dust-free install.
- ▶ **Zero Problems:** Rain safe in just 10 minutes. Fastest set up time in the market helps with unforeseen weather.

APPLICATION

- ▶ Concrete Pavers
- ▶ Driveways
- ▶ Pool Decks
- ▶ Patios & Walkways
- ▶ Concrete Overlays & Non-Overlays

COVERAGE: 1/16" - 2"

- ▶ Narrow Joints: 55 - 75 sq. ft.
- ▶ Wide Joints: 20 - 30 sq. ft.

AVAILABLE IN 5 COLORS

WETLOK™

FEATURES

- ▶ Can be installed in the rain
- ▶ Pre-mixed & ready to use
- ▶ Use for joints 1/8" - 5"
- ▶ Use with hybrid or traditional base
- ▶ Permeable
- ▶ Easy to use, simply brush into joints & settle with water
- ▶ Resists weeds & plant growth

APPLICATION

- ▶ Light-Duty Residential Driveways
- ▶ Porcelain
- ▶ Concrete/Clay Pavers
- ▶ Patios & Walkways
- ▶ Natural Stone
- ▶ Pool Decks
- ▶ Wetcast
- ▶ Terracotta
- ▶ Installations with HexaBase™ & other base replacements

COVERAGE: 1/8" - 5"

- ▶ One tub covers 45 - 65 sq. ft. with a 1/8" joint

AVAILABLE IN 5 COLORS

JETSWEEP

FEATURES

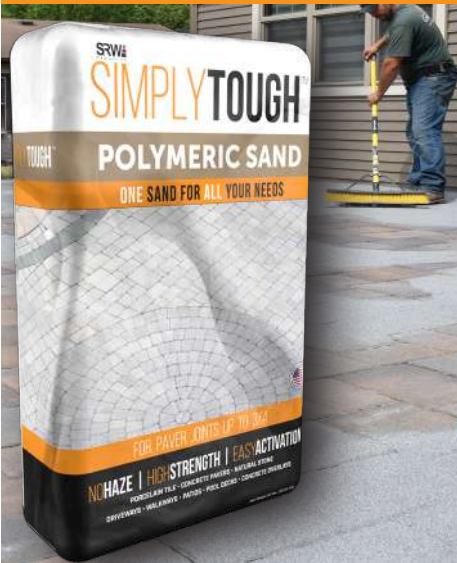

- ▶ Quickly attach to a variety of handled tools like Push Brooms, Squeegees, Deck Brushes, & more.
- ▶ Sturdy, all-metal design
- ▶ Works with any garden hose
- ▶ Quick-connect adapters for easy tool-swapping
- ▶ Shut-off valve for convenience

APPLICATIONS

- ▶ WetLok™ Installation
- ▶ Patio Cleaning with SRW Products Cleaners
- ▶ Garage Floors
- ▶ Decks
- ▶ Pool Deck
- ▶ Driveway
- ▶ Siding
- ▶ Outdoor Jobs

See page 92 for ordering information

SIMPLYTOUGH™

FEATURES

- ▶ No Haze
- ▶ High Strength
- ▶ Easy Activation & Installation
- ▶ One sand for all your needs

APPLICATION

- ▶ Porcelain Tile
- ▶ Concrete Pavers
- ▶ Natural Stone
- ▶ Patios & Walkways
- ▶ Pool Decks
- ▶ Concrete Overlays
- ▶ Driveways

COVERAGE: 1/16" - 3/4"

- ▶ Narrow Joints: 55 - 75 sq. ft.
- ▶ Wide Joints: 25 - 35 sq. ft.

AVAILABLE IN 2 COLORS

DON'T FORGET TO TUMBLE YOUR BAG

When using Pavermate Z3™, SimplyTough™, or X-treme™, gently tumble the bag before application to properly mix the polymers with the sand. Then cut the bottom & spread sand evenly over the surface.

PAVERMATE

3

TM

Activation

Working in sections up to 200 sq. ft. (18.58 sq. m.), water the section for a total of 2 minutes using all **three** applications of water below.

Do not allow the section to dry during the 2-minute watering:

MIST: Use a hose with a sprayer attachment set to "mist" or a similar light setting. Mist the area until the surface is wet.

SHOWER: Next, set the hose to "light shower" to allow more water over the area. Repeat the shower **two** times over the section.

Use a screwdriver to test for proper moisture depth of at least 1" (2.54 cm). If depth is not achieved, immediately wet the area with a shower setting.

Once moisture depth is achieved, blow off excess water using a leaf blower.

IMPORTANCE OF USING EDGING

Edging serves a critical role in securing the pavers & preventing horizontal movement, while ensuring the system withstands the test of time. The edging must be placed directly to the base layer, encapsulating both the bedding sand & at least the bottom one inch of the paver.

To secure the edging, drive spikes through the edging holes & into the base material, spacing them every one foot on a straight run & eight inches around curves. When driving the spikes, be careful not to drive them in too deep, which can cause them to bounce back out of the ground after the final hit - a phenomenon known as "de-seating." This can lead to the spikes pushing out of the ground during freeze/thaw. Instead, drive the spikes until the head is a quarter inch above the edging lip.

EDGING

CRETE-RAIL™

FEATURES

- ▶ Fiber reinforced for maximum strength
- ▶ Fast Set Time
- ▶ Rigid yet flexible support
- ▶ Polymer-modified for flexibility to withstand freeze/thaw
- ▶ Residential or light commercial use
- ▶ Designed for use in cold climates
- ▶ Creates solid interlock for projects

APPLICATION

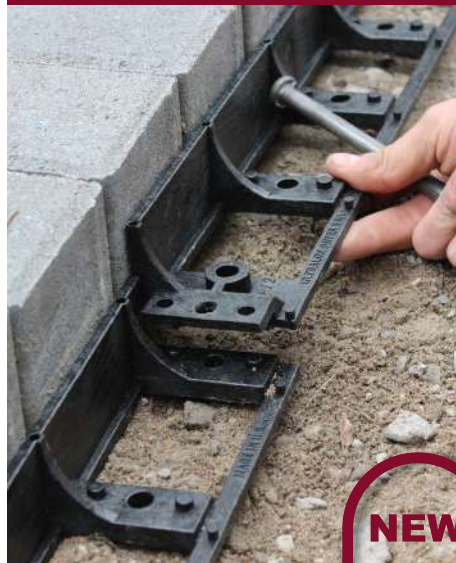

- ▶ Use with curved, straight or irregular edges
- ▶ Pavers & Permeable Pavers
- ▶ Natural Stone & Wetcast
- ▶ Open Graded Base
- ▶ Driveways, Paths & Patios
- ▶ Traditional, open-graded base & permeable paver installations

COVERAGE

- ▶ One 50 lb. bag covers 13 - 17 linear feet

See page 92 for ordering information

ULTRALOK PAVER RAIL™

FEATURES

- ▶ 3-point interlocking connection for maximum strength
- ▶ Open footprint allows for proper drainage & encourages root development along the edge of the project
- ▶ 100% Recycled HDPE with added UV resistance
- ▶ Heavy-duty injection molded design
- ▶ 0.210" wall thickness with heavy-duty gussets
- ▶ Engineered by contractors for strength, durability, & longevity
- ▶ Patent-pending design
- ▶ 7' 9" length x 1 7/8" height
- ▶ Stacking pins for easy transport & shipping

APPLICATIONS

- ▶ Straight & curved edges
- ▶ Foot traffic or light duty vehicle traffic projects
- ▶ Paving stone installation
- ▶ Traditional Base Installation
- ▶ For residential & light-duty commercial applications
- ▶ Use in conjunction with a gravel pathway & SRW Path Stabilizer
- ▶ Height considerations of 2 3/8" - 3" 1/8" (60-80mm)

See page 92 for ordering information

SPIKES

FEATURES

- ▶ Smooth or Spiral
- ▶ Bright or Galvanized finishes
- ▶ 10" & 12" lengths

APPLICATIONS

- ▶ UltraLok Paver Rail™
- ▶ Paver Rail™
- ▶ Timber

See page 92 for ordering information

The top of Crete-Rail™ should taper away from the pavers at approximately 30 degree angle.

UNIVERSAL PAVER RAIL™

FEATURES

- ▶ Permanent & invisible barrier between hardscapes & other landscape materials
- ▶ Product height 1 - 7/8"

APPLICATION

- ▶ Straight & curved applications
- ▶ For use with spikes, staples or stakes

See page 92 for ordering information

FLEX PAVER RAIL™

FEATURES

- ▶ Can be applied on both straight & curved applications
- ▶ Product height 1 - 7/8"
- ▶ Most Flexible Option

APPLICATION

- ▶ Straight & curved applications
- ▶ For use with spikes or staples

See page 92 for ordering information

LOW PROFILE PAVER RAIL™

FEATURES

- ▶ Can be installed against porcelain, wetcast or natural stone to prevent shifting
- ▶ Product height 1 - 3/16"
- ▶ Ideal for natural stone or porcelain

APPLICATION

- ▶ Straight & curved applications
- ▶ Low profile applications
- ▶ For use with spikes, staples or stakes

See page 92 for ordering information

DON'T FORGET TO SECURE THE EDGE ON YOUR PAVER PROJECT WITH SPIKES.

Spikes should be placed every one foot on the paver rail & every 8 inches when going around a curve or corner.

Smooth Spikes are the most commonly used spikes to secure paver edging.

Spiral Spikes have a greater surface area allowing for more contact with the base material.

Bright Spikes can rust into the base material over time locking the spikes in adding to their holding power.

Galvanized Spikes resist rust making maintenance & repairs easier.

THE STRENGTH OF SUPERIOR STRENGTH SOLVENT-BASED™ ADHESIVE

Chemical Makeup of Solvent-Based Adhesives

Solvent-based adhesives cure through the evaporation of the solvents within the adhesive. What makes this type of adhesive so strong is that the solvents push away any moisture from where the adhesive is placed on the substrate, allowing it to bond to even wet surfaces.

Our Superior Strength Solvent-Based™ Adhesive has green strength within 3-4 hours of application & is fully cured in 3-7 days. However, this curing process can be hastened by flashing (more on this below). Green strength is when the pieces no longer readily move or separate. Once cured, this adhesive is so strong that the paver or substrate will fail before the adhesive!

Speed Up Curing by Flashing

When using a solvent-based adhesive, remember to flash for faster curing. Press the surfaces together firmly, then lift the top product & immediately reposition.

This adhesive is a solid workhorse that will not disappoint whether you use it indoors or outdoors. Solvent-based adhesives work with most common hardscaping, landscaping, & construction materials. In the end, you will not find a stronger bonding adhesive.

ADHESIVE

VERTICAL INSTANT LOCK™

FEATURES

- ▶ Instantly locks building materials in place vertically or horizontally
- ▶ Low Odor
- ▶ Interior/Exterior Applications
- ▶ 10 minute working time
- ▶ Quick curing & non-corrosive
- ▶ V-notch nozzle for consistent bead
- ▶ Requires a caulking gun with a minimum 14:1 thrust ratio
- ▶ VOC Compliant

APPLICATION

- ▶ Household Repairs
- ▶ Natural Stone
- ▶ Manufactured Stone
- ▶ Brick, Block, & Pavers
- ▶ Metals/Wood
- ▶ Glass & Ceramic Tile
- ▶ Veneers
- ▶ Dry Stack
- ▶ Masonry
- ▶ Outdoor Kitchens

COVERAGE

- ▶ 210 linear inches

See page 92 for ordering information

SUPERIOR STRENGTH SOLVENT-BASED™

FEATURES

- ▶ Superior Strength & Longevity
- ▶ Works on wet or frozen surfaces
- ▶ High Temperature Compatible
- ▶ Extrudes down to 10°F
- ▶ Interior/Exterior Applications
- ▶ VOC Compliant Option

APPLICATION

- ▶ Retaining Walls
- ▶ Pavers/Block
- ▶ Natural Stone
- ▶ Metals/Wood
- ▶ Firepits
- ▶ Works on most common landscaping & construction materials

COVERAGE

- ▶ 1/4" Bead: 10 oz 32 ft, 28 oz 89 ft
- ▶ 3/8" Bead: 10 oz 14 ft, 28 oz 35 ft

See page 92 for ordering information

RAPID-SET POLYURETHANE™

FEATURES

- ▶ 1 Hour Set Time
- ▶ Designed for construction & landscape projects
- ▶ Suitable for dry or damp surfaces
- ▶ High temperature compatible up to 400° F
- ▶ Interior/Exterior Applications
- ▶ Premium, long-lasting strength
- ▶ VOC Compliant

APPLICATION

- ▶ Firepits
- ▶ Retaining Walls
- ▶ Pavers/Concrete
- ▶ Pool Copings
- ▶ Foam/Vinyl/PVC
- ▶ Brick
- ▶ Metals/Wood
- ▶ Natural Stone
- ▶ Non-porous Substrates
- ▶ Works on most common landscaping & construction materials

COVERAGE

- ▶ 1/4" Bead: 10 oz 32 ft, 28 oz 89 ft
- ▶ 3/8" Bead: 10 oz 14 ft, 28 oz 35 ft

See page 92 for ordering information

Be sure the substrate can support the weight. To calculate the recommended amount of linear inches (cm) of adhesive needed, multiply the weight in lbs. (kg) by 2.33 (13.05).

SEAMS RIGHT™ TURF ADHESIVE

FEATURES

- ▶ Moisture Curing
- ▶ Weather Resistant
- ▶ Fast Setting
- ▶ Interior/Exterior
- ▶ VOC Compliant

APPLICATION

- ▶ Synthetic Turf
- ▶ Putting Greens
- ▶ Pet Areas
- ▶ Playgrounds
- ▶ Landscaping

See page 92 for ordering information

SF-8™ ADHESIVE

FEATURES

- ▶ Fastest set-up time on the market
- ▶ Designed for construction & landscape projects
- ▶ High temperature compatible up to 250° F
- ▶ Interior/Exterior Applications
- ▶ Premium long-lasting strength
- ▶ 1 can = 20+ traditional adhesive tubes with a 3/8" bead
- ▶ 8 - minute tack free

APPLICATION

- ▶ Retaining Walls
- ▶ Pavers
- ▶ Concrete
- ▶ Natural Stone
- ▶ Brick
- ▶ Porcelain
- ▶ Steel/Metal
- ▶ Aluminum
- ▶ Vinyl/PVC
- ▶ Wood/Plywood
- ▶ Composite Materials
- ▶ Drywall

COVERAGE

- ▶ 3/8" bead = 600 linear ft

See page 92 for ordering information

ADHESIVE DISPLAY

FEATURES

- ▶ Dimensions: 67" H x 16" W x 16" D
- ▶ Quality heavy-duty construction, to easily handle SRW Products adhesives
- ▶ Two Wire Shelves
- ▶ Bottom Storage Shelf
- ▶ Sign Channel to hold product labels (*ordered separately*)
- ▶ Powder coat finish: semi-gloss black
- ▶ Header Sign Set Conveniently packaged with the display

Contact your Territory Sales Representative today about the qualifications required to get a display.

See page 92 for ordering information

DON'T FORGET A CAN OF CLEANER WHEN PURCHASING SF-8™ ADHESIVE & DISPENSER GUN.

Not only can the SF-8™ Cleaner be used to maintain the quality of the gun, it comes with an easy to use attached nozzle for quick jobsite cleanups.

PREMIUM CAULKING GUN

FEATURES

- ▶ 18:1 Thrust Ratio
- ▶ Professional Grade
- ▶ Spout Cutter/Seal Puncture Tool
- ▶ Revolving Barrel/Zinc Handle
- ▶ Heavy-duty Welded Design
- ▶ Recommended for VIL Vertical Instant Lock™
- ▶ Ergonomic Handle
- ▶ Revolving barrel

See page 92 for ordering information

STANDARD CAULKING GUN

FEATURES

- ▶ 10:1 Thrust Ratio
- ▶ Ladder Hook & Thumb Release
- ▶ Smooth Rod Cradle
- ▶ Heavy-duty Steel Construction
- ▶ 28 oz guns include a seal puncture & spout cutter

See page 92 for ordering information

ECONOMY CAULKING GUN

FEATURES

- ▶ 3:1 Thrust Ratio
- ▶ Non-Drip for Easy Cleanup
- ▶ Smooth Rod Cradle
- ▶ Heavy-duty Steel Construction
- ▶ 28 oz guns include a seal puncture & spout cutter

USE THE PROCESS OF FLASHING WHEN USING SUPERIOR STRENGTH SOLVENT-BASED™ ADHESIVE

Superior Strength Solvent-Based™ adhesive can build early grab strength by flashing your block or cap.

Flashing is a process where you extrude adhesive & place the block or cap on, immediately lift the top block or cap at an angle for two seconds & replace it. This will expose surface area within adhesive to release up to 50% of solvents & provide early strength.

STANDARD DISPENSER GUN

FEATURES

- ▶ One piece plastic body
- ▶ Aluminum needle with brass tip
- ▶ Fully Adjustable Dial
- ▶ Turn adjustable dial clockwise to prevent release during transport or in storage

See page 93 for ordering information

PREMIUM DISPENSER GUN

FEATURES

- ▶ Teflon coated aluminum body
- ▶ Teflon coated brass tip
- ▶ Easy to clean off dried adhesive
- ▶ Fully Adjustable Dial
- ▶ Turn adjustable dial clockwise to prevent release during transport or in storage

See page 93 for ordering information

SF-8™ CLEANER

FEATURES

- ▶ Twists on the standard or premium dispenser gun for easy cleaning
- ▶ Includes spray nozzle for spot cleaning on the job site
- ▶ 16 oz can for extended use

See page 93 for ordering information

ONE ADHESIVE

Endless

POSSIBILITIES

Explore the versatility of our Vertical Instant Lock™ Adhesive, with instant grab strength & advanced technology. This adhesive provides 7x thicker coverage than traditional adhesives, able to hold products up to 2" thick & 25 lbs. Whether for outdoor kitchens, manufactured stone, tiling, or indoor home repairs, it's the perfect go-to solution. Forming strong, permanent bonds with various materials including stone, concrete, wood, & metal, it offers endless possibilities for application.

*Always make sure at least one surface is porous. Always test in a small area. Check product label for interior/exterior use.

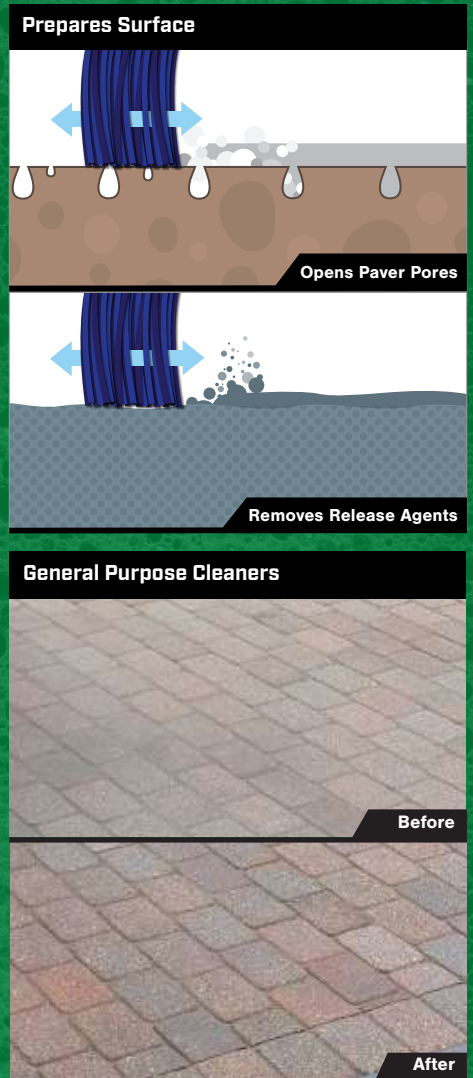

CLEANERS

CLEAN BEFORE SEALING FOR THE BEST BOND

Removing all surface stains is essential to getting the best-looking seal. If needed, start by using one of the following to remove specific issues.

- ▶ *EF Efflorescence Remover™*
- ▶ *M³C Mold, Moss, & Mildew Cleaner™*
- ▶ *CDX Cleaner & Degreaser X-treme™*
- ▶ *RE Rust Eliminator™*
- ▶ *OC Organic Stain Cleaner™*

Whether you use one of the above spot cleaners or not, SRW Products ***always recommends*** using **PW Paver Wash™** or **DW Dual Wash™**, depending on the surface, prior to sealing a project. Cleaning solutions pull the dirt and debris out, leaving a perfect surface for the sealer to bond. While pressure washing drives dirt and debris deeper into the pores.

SRW
PRODUCTS

HOW-TO'S

PW PAVER WASH™

FEATURES

- ▶ Opens surface pores for optimal sealer bond
- ▶ Removes polyhaze, efflorescence & ground-in dirt
- ▶ Restores original paver color
- ▶ Contains no muriatic acid or hydrochloric acid
- ▶ Ready to use; no diluting needed
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Block Retaining Wall

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

DW DUAL WASH™

FEATURES

- ▶ Removes ground-in dirt, light grease & oil
- ▶ Easy to use, concentrated solution
- ▶ Contains No Acid
- ▶ See chart on page 29

APPLICATION

- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Bluestone/Sandstone

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

EF EFFLORESCENCE REMOVER™

FEATURES

- ▶ Dissolves mineral deposits (efflorescence)
- ▶ Restores original surface color
- ▶ Contains no muriatic acid or hydrochloric acid
- ▶ Ready to use—no diluting needed
- ▶ See chart on page 29

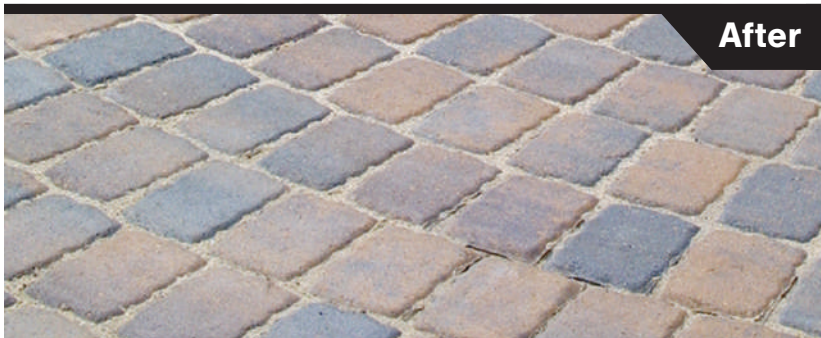

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Block Retaining Wall

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

REVITALIZE

your project with
EF Efflorescence Remover™

Available in 1 & 5 Gal

M³C MOLD, MOSS & MILDEW CLEANER™

FEATURES

- ▶ Kills down mold, moss, mildew, lichen & algae from the inside out
- ▶ Non-acidic, no-bleach formula
- ▶ No pressure washing, scrubbing or rinsing
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Bluestone/Sandstone
- ▶ Block Retaining Wall
- ▶ Manufactured Stone
- ▶ Stamped Concrete
- ▶ Brick
- ▶ Shingles
- ▶ Asphalt
- ▶ Wood
- ▶ Vertical Applications

COVERAGE

- ▶ Covers up to 2,200 sq. ft. per gallon of concentrate

See page 93 for ordering information

M³C Mold, Moss, & Mildew Cleaner™

It's A
KILLER
Not A
Cleaner

CDX CLEANER & DEGREASER X-TREME™

FEATURES

- ▶ Removes Oil, Grease, Tar, Gum, Rubber, & Paint
- ▶ Fast-acting concentrated formula
- ▶ Rinses clean with water
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Bluestone/Sandstone
- ▶ Block Retaining Wall
- ▶ Manufactured Stone

COVERAGE

- ▶ Coverage varies, spot treat as needed

See page 93 for ordering information

RE RUST ELIMINATOR™

FEATURES

- ▶ Removes rust & hard water stains
- ▶ Rinses clean with water
- ▶ Heavy-duty concentrated formula
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Granite/Quartz
- ▶ Bluestone/Sandstone
- ▶ Block Retaining Wall

COVERAGE

- ▶ Coverage varies, spot treat as needed

See page 93 for ordering information

OC ORGANIC STAIN CLEANER™

FEATURES

- ▶ Breaks down organic stains from leaves, wood tannins, pine needles, acorns, fruit, wine, etc.
- ▶ Rinses clean with water
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Bluestone/Sandstone
- ▶ Block Retaining Wall
- ▶ Manufactured Stone

COVERAGE

- ▶ Coverage varies, spot treat as needed

See page 93 for ordering information

USING A PRESSURE WASHER TO REMOVE STAINS

When using CDX Cleaner & Degreaser X-treme™ or OC Organic Stain Cleaner™ the pressure washer nozzle should start 6" away from the surface & move down until you see that stain being removed.

Typically, you will find that the most effective distance ends up being 1-1.5" from the surface. A 15 degree nozzle (yellow) will work best.

XY XYLENE SOLVENT™

FEATURES

- ▶ Thins & dissolves acrylic sealers
- ▶ Fast-Acting Solvent
- ▶ Aids in cleanup of tools
- ▶ Removes Unwanted Overspray
- ▶ Removes trapped moisture in most film-forming sealers
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Block Retaining Wall
- ▶ Manufactured Stone
- ▶ Stamped Concrete

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

SS SEALER STRIPPER™

FEATURES

- ▶ Aids in removal of sealing & curing compounds
- ▶ Industrial Strength
- ▶ Graffiti/Dry Fog Paints
- ▶ Tile/Carpet Adhesive
- ▶ Biodegradable
- ▶ See chart on page 29

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Bluestone/Sandstone
- ▶ Block Retaining Wall

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

JETSWEEP

FEATURES

- ▶ Quickly attach to a variety of handled tools like Push Brooms, Squeegees, Deck Brushes, & more.
- ▶ Sturdy, all-metal design
- ▶ Works with any garden hose
- ▶ Quick-connect adapters for easy tool-swapping
- ▶ Shut-off valve for convenience

APPLICATIONS

- ▶ WetLoK™ Installation
- ▶ Patio Cleaning with SRW Products Cleaners
- ▶ Garage Floors
- ▶ Decks
- ▶ Pool Deck
- ▶ Driveway
- ▶ Siding
- ▶ Outdoor Jobs

See page 93 for ordering information

X-TREME CLEANING POWER

GREASE STAINS

Apply, let soak & pressure wash off

GUM

Let soak & hit with pressure washer

TAR STAINS

Simply wipe right off with CDX & a rag

SEALER DISPLAY

FEATURES

- ▶ Dimensions: 72" H x 28" W x 24" D
- ▶ Quality heavy-duty construction, to easily handle SRW Products cleaners & sealers
- ▶ Four Wire Shelves
- ▶ Sign Channel to hold product labels (*ordered separately*)
- ▶ Powder coat finish: semi-gloss black
- ▶ Header Sign Set Conveniently packaged with the display

Contact your Territory Sales Representative today about the qualifications required to get a display.

See page 93 for ordering information

Why XY XYLENE SOLVENT™?

Use XY Xylene Solvent™ to soften the original sealer to allow the new sealer to bond.

If the project was originally sealed with one of the following sealers:

- LGX Low Gloss X-treme™*
- HGX High Gloss X-treme™*
- PRX Paver Restore X-treme™*
- DG Dual Guard™*
- HG High Gloss™*

You can revitalize the project by spraying XY Xylene Solvent™ & back rolling the surface just prior to recoating the original sealer used.

Always test a small area. Check product label for interior/exterior use. Refer to surface material manufacturer's recommendations on whether or not to seal.

WE'VE MADE IT
Simple

THREE COMPREHENSIVE SEALER LINES

Yep, it's **SIMPLE**. We proudly offer the most **STREAMLINED** & comprehensive sealer products in the industry. With only 3 sealer lines we still provide the **BEST** solutions for a wide variety of finish preferences & hardscape surfaces.

SEALERS

PAVER SEAL

PREMIUM SEAL

SPECIALTY SEAL

PS PENETRATING™

FEATURES

- ▶ Invisible/Natural-look finish
- ▶ Water-based
- ▶ CARB Compliant
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Interior/Exterior Applications
- ▶ Makes paver maintenance easier
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Concrete Permeable Pavers
- ▶ Block Retaining Wall
- ▶ Manufactured Stone

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

PAVER SEAL

LG LOW GLOSS™

FEATURES

- ▶ Low-gloss finish, color-enhancing
- ▶ Water-based
- ▶ Stabilizes joint sand from washout, weeds & ants
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Provides UV Protection
- ▶ Interior/Exterior Applications
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Block Retaining Wall
- ▶ Manufactured Stone

COVERAGE

- ▶ Covers up to 150 sq. ft. per gallon

See page 93 for ordering information

PAVER SEAL

HG HIGH GLOSS™

FEATURES

- ▶ High-gloss, wet-look finish
- ▶ Water-based
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Provides UV protection
- ▶ Stabilizes joint sand from washout, weeds & ants
- ▶ Color Enhancing
- ▶ Exterior Applications
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Block Retaining Wall
- ▶ Manufactured Stone

COVERAGE

- ▶ Covers up to 150 sq. ft. per gallon

See page 93 for ordering information

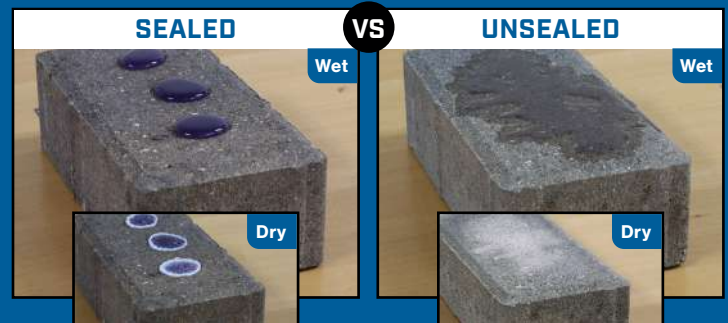

PAVER SEAL

PREVENT DAMAGE FROM:

- ▶ Salt/Acid Rain
- ▶ Pool Chemicals
- ▶ Color Fade
- ▶ Surface Erosion
- ▶ Deep Staining
- ▶ Freeze/Thaw

In the images shown on the right, you can see how unsealed pavers allow moisture & contaminants to seep into the surface. SRW Products sealed paver beads the salt water on the surface so it can be brushed or easily cleaned from the surface.

Sealed with SRW Products Penetrating sealers

PSX PENETRATING X-TREME™

FEATURES

- ▶ Invisible/Natural-look finish
- ▶ Water-based
- ▶ Ideal for high-traffic areas
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Interior/Exterior Applications
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Block Retaining Walls
- ▶ Manufactured Stone

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 93 for ordering information

PREMIUM SEAL

LGX LOW GLOSS X-TREME™

FEATURES

- ▶ Low-gloss finish
- ▶ Solvent-based
- ▶ High Color Enhancement
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Provides UV Protection
- ▶ Ideal for high-traffic areas
- ▶ VOC Compliant Option
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Manufactured Stone
- ▶ Stamped Concrete

COVERAGE

- ▶ Covers up to 250 sq. ft. per gallon

See page 93 for ordering information

PREMIUM SEAL

HGX HIGH GLOSS X-TREME™

FEATURES

- ▶ High-gloss, wet-look finish
- ▶ Solvent-based
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Provides UV Protection
- ▶ Ideal for high-traffic areas
- ▶ Color Enhancing
- ▶ VOC Compliant Option
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Manufactured Stone
- ▶ Stamped Concrete

COVERAGE

- ▶ Covers up to 250 sq. ft. per gallon

See page 93 for ordering information

PREMIUM SEAL

PRIOR TO SEALING A SURFACE

Whether using a penetrating sealer or a film forming sealer, SRW Products strongly recommends a **two** person **two** step application.

1

PERSON ONE:

Spray the sealer to ensure an even coat.

2

PERSON TWO:

Roll the surface with one of our select slit foam rollers to ensure sealer is evenly distributed & does not pool in the joints or texture of the material in which it is applied.

DG DUAL GUARD™

FEATURES

- ▶ 2 levels of long-lasting protection in 1 easy step
- ▶ Solvent-based
- ▶ High-gloss, wet-look finish
- ▶ Acrylic/Siloxane Blend
- ▶ Commercial/Industrial Strength
- ▶ Provides penetrating protection from environmental damage
- ▶ VOC Compliant Option
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Block Retaining Wall
- ▶ Manufactured Stone
- ▶ Stamped Concrete

COVERAGE

- ▶ Covers up to 250 sq. ft. per gallon

See page 93 for ordering information

PREMIUM SEAL

Choose your favorite sheen of **PROTECTION**

Natural Look

PS or PSX

Penetrating sealers create an invisible protective barrier.

Color Enhancing

LG or LGX

Low Gloss sealers provides a color enhancing sheen.

Wet Look

HG or HGX

High Gloss sealers provide protection with a wet look.

PRX PAVER RESTORE X-TREME™

FEATURES

- ▶ Solvent-based
- ▶ Restores faded pavers with color reviving technology
- ▶ Adds rich color to older pavers
- ▶ High-gloss, wet-look, restoring pigmented sealer
- ▶ Highly durable, long lasting protection for extreme conditions
- ▶ VOC Compliant Option
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Concrete Permeable Pavers
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Exposed Aggregate Concrete

COVERAGE

- ▶ Covers up to 250 sq. ft. per gallon

Read instruction regarding surface color options.
See page 94 for ordering information

SPECIALTY SEAL

SGX STAIN GUARD X-TREME™

FEATURES

- ▶ Water-based
- ▶ Protects against stains from chemicals, grease & oil
- ▶ Minimizes salt & freeze/thaw damage
- ▶ Invisible/Natural-Look finish
- ▶ Ideal for driveways & commercial applications
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Block Retaining Wall

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 94 for ordering information

SPECIALTY SEAL

JS JOINT STABILIZER™

FEATURES

- ▶ Water-based
- ▶ Joint widths up to 3/4"
- ▶ 2-in-1: seals surface & stabilizes joints
- ▶ Eliminates Joint Washout
- ▶ Reduces weeds & ant infestation
- ▶ Natural-look/Matte finish
- ▶ Resists moss, mold & mildew growth
- ▶ Residential & Commercial
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Wetcast

COVERAGE

- ▶ Seals & stabilizes standard joints: Covers up to 80 -120 sq. ft. per gallon
- ▶ Cured polymeric sand: Covers up to 125 sq. ft. per gallon

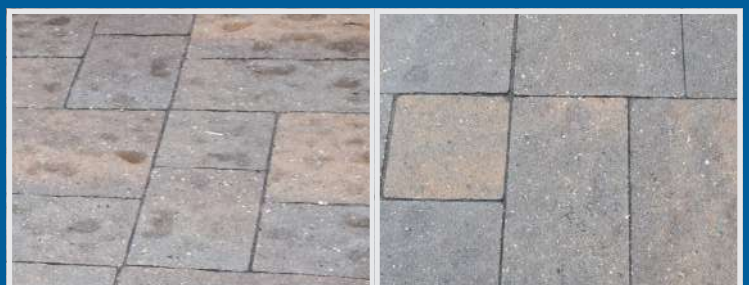

See page 94 for ordering information

SPECIALTY SEAL

BACK ROLLING SEALERS

When spraying sealer onto pavers, back rolling will prevent the unwanted pooling of sealer on your project.

S-PS PENETRATING™

FEATURES

- ▶ Solvent-based
- ▶ Invisible/Natural-look finish
- ▶ Protects surface from staining
- ▶ Ideal for outdoor applications
- ▶ Minimizes salt & freeze/thaw damage
- ▶ VOC Compliant Option
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Clay Pavers
- ▶ Concrete Permeable Pavers
- ▶ Wetcast
- ▶ Granite/Quartz
- ▶ Marble/Travertine
- ▶ Limestone
- ▶ Bluestone/Sandstone
- ▶ Block Retaining Wall
- ▶ Manufactured Stone

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 94 for ordering information

SPECIALTY SEAL

ONE GALLON SPRAYER

FEATURES

- ▶ 1-Gallon funnel-top, translucent tank for easy filling & cleaning
- ▶ Compatible with many SRW Products sealers & cleaners
- ▶ 12" Curved wand with shutoff
- ▶ 3 nozzles for Fine, Medium, & Coarse/Viscous liquids
- ▶ Flexible & Reinforced 34" Hose
- ▶ Ergonomic handle for easy pumping & carrying
- ▶ Chemical Resistant Hose & Seals

APPLICATION

- ▶ **Specialty Seal:** S-PS, SGX, JS, PRX
- ▶ **Premium Seal:** PSX, LGX, HGX, DG
- ▶ **Paver Seal:** PS, LG, HG
- ▶ **SRW Cleaners:** M°C, Xylene

See page 94 for ordering information

HEAVY-DUTY CONSTRUCTION SPRAYER

FEATURES

- ▶ Use with SRW Product Sealers
- ▶ Galvanized Steel
- ▶ Can handle up to 35% solids
- ▶ Ideal for commercial applications

APPLICATION

- ▶ Works well with all SRW Products sealers.

See page 94 for ordering information

DON'T FORGET THE SEALER APPLIERS

Make sure you have the appropriate sprayer & roller for applying the sealer on your project.

SRW SLIT FOAM ROLLER™

FEATURES

- ▶ Applies SRW Products sealers evenly
- ▶ Works great on textured surfaces
- ▶ Remains spongy & will not compress

APPLICATION

- ▶ Designed for use with any SRW Products water-based sealers.

See page 94 for ordering information

SRW SLIT FOAM ROLLER X-TREME™

FEATURES

- ▶ Applies SRW Products sealers evenly
- ▶ Works great on textured surfaces
- ▶ Remains spongy & will not compress

APPLICATION

- ▶ Designed for use with solvent-based products. Also works well with all SRW Products sealers.

See page 94 for ordering information

SR SLIP-RESIST™

FEATURES

- ▶ Improves slip resistance
- ▶ Adds invisible grip
- ▶ Can be used with all SRW Products film-forming sealers
- ▶ 1:1 ratio; 1 pouch per 1gal

APPLICATION

- ▶ **Specialty Seal:** PRX
- ▶ **Premium Seal:** LGX, LGX VOC, HGX, HGX VOC, DG, DG VOC
- ▶ **Paver Seal:** LG, HG

See page 94 for ordering information

SRW PRODUCTS CLEANERS VS. PRESSURE WASHING

SRW Products Cleaners opens the pores of your pavers allowing sealers to bond & penetrate better. Cleaners also help to remove construction debris & dust as well as efflorescence.

Pressure Washing without a cleaner drives dirt deeper into the pores leaving the potential for reduced bonding of the sealer.

STABILIZERS

THE Solution TO YOUR MESS

SRW PATH STABILIZER™

FEATURES

- ▶ Stabilizes Pathways & Patios
- ▶ Liquid bonding agent that controls dust
- ▶ One easy-to-use formula ideal for both commercial & residential applications
- ▶ Minimizes tracking & weed growth

APPLICATIONS

- ▶ Decomposed Granite
- ▶ Crushed Stone 3/8"-1/4" minus
- ▶ Pathways & Patio Areas

COVERAGE

- ▶ Covers up to 75 sq. ft. per 5 gallons

See page 94 for ordering information

MULCH STABILIZER™

FEATURES

- ▶ Locks Mulch in Place
- ▶ Easy to Use
- ▶ Enhances Color
- ▶ Prevents Fading
- ▶ Dries Clear
- ▶ Flexible Bond
- ▶ Helps prevent weed growth

APPLICATIONS

- ▶ Colored & Natural Mulch
- ▶ Synthetic Mulch
- ▶ Pine Straw
- ▶ Sand & Dirt

COVERAGE

- ▶ Covers up to 200 sq. ft. per gallon

See page 94 for ordering information

JS JOINT STABILIZER™

FEATURES

- ▶ Water-based
- ▶ Joint widths up to 3/4"
- ▶ 2-in-1: seals surface & stabilizes joints
- ▶ Eliminates Joint Washout
- ▶ Reduces weeds & ant infestation
- ▶ Natural-look/Matte finish
- ▶ Resists moss, mold & mildew growth
- ▶ Residential & Commercial
- ▶ See chart on page 36-37

APPLICATION

- ▶ Concrete Pavers
- ▶ Wetcast

COVERAGE

- ▶ Seals & stabilizes standard joints: Covers up to 80 -120 sq. ft. per gallon
- ▶ Cured polymeric sand: Covers up to 125 sq. ft. per gallon

See page 94 for ordering information

2-IN-1 STABILIZING SEALER! ELIMINATE JOINT WASHOUT & SEAL PAVER SURFACES.

JS Joint Stabilizer is a water-based 2-in-1 stabilizing sealer. Seal pavers & eliminate joint washout by creating solid, stable joints when applied over standard jointing sand or cured polymeric sand.

DIAMOND BLADES

Our General Purpose

9" BLADES

**FOR THE GROWING
INDUSTRY OF
ELECTRIC TOOLS**

NOW stocking general purpose 9" blades that can be used on **ANY** 9" electric saw on the market.

Segments with Key-Hole Slots

1

Key-hole slots are a feature on segmented style blades. They help to reduce core temps by circulating air around segments. Different widths of key-hole slots are used to control heat in different applications. Segmented blades are the industry standard for blades designed to cut a wide variety of materials.

Alt. Drop Segments with U-Hole Slots

2

Special alternating segments with taller profiles to protect against undercut while cutting asphalt & other abrasive materials. This premium feature is typically combined with wider u-slots to help lower blade temperatures, further extending the blade life.

Alt. Turbo Segments with Key-Hole Slots

3

This serrated edge is designed to give the blade faster cutting speeds while maintaining a smooth cut. This feature generally allows premium blades to cut slightly harder materials with longer blade life. Key-hole slots are also added to control core temperatures.

Angled Alt. Turbo Segments with Angled Key-Hole Slots

4

A feature of SRW All Purpose Blades, this style of alternating turbo segment clears debris & slurry from the cut faster, making the blade suitable for a wider range of materials. Angled key-hole slots compliment the turbo segments by further reducing segment temperatures to reduce the risk of glazing.

DIAMOND BLADE SEGMENT STYLE GUIDE

5

Alt. Turbo Segments with Angled U-slots

Combining alternating turbo segments with wide angled u-slots helps the blade handle a wider range of materials without overheating the segments or core. This combination helps to ensure best blade lifespan.

6

Segmented Turbo Rim

Designed for hard materials, every segment of this style blade is a turbo segment. This allows the blade to use softer bonds for faster cutting, while keeping core heat lower to resist distortion.

7

Turbo Crown

This saw tooth segment is designed to provide high speed cutting through faster debris removal, cooler blade temps, & the taller turbo crown segments offering a long lasting professional finish with smoother cuts.

8

Continuous Turbo Rim

Continuous turbo rim allows for higher RPM's without overheating the blade core & "glazing" the diamonds. For safety, MAX RPM ratings should be strictly followed.

GENERAL PURPOSE BLADES

FEATURES

- ▶ Specifically engineered for use with a variety of general purpose cutting conditions
- ▶ Standard & premium options available

APPLICATIONS

- ▶ Brick/Clay
- ▶ Cured Concrete
- ▶ Sandstone
- ▶ Limestone
- ▶ Travertine
- ▶ Wetcast
- ▶ Retaining Wall Block
- ▶ Concrete Block
- ▶ Reinforced Concrete with Wire Mesh

- ▶ Natural Stone

EXPOSING NEW DIAMONDS

To restore a dull blade, use a soft concrete block, piece of sandstone, or asphalt surface to dress and sharpen the edge, exposing fresh diamond particles.

4.5" SINGLE TURBO CUP WHEEL

FEATURES

- ▶ Single turbo style for increased grinding speed. Ideal for removing material in high spots.

See page 95 for ordering information

4.5" DOUBLE TURBO CUP WHEEL

FEATURES

- ▶ Double turbo style for faster/more aggressive grinding & added diamonds/segments for longer life.

See page 95 for ordering information

CUP WHEEL BEST PRACTICE

- Lay the cup wheel flat in the surface before turning on the grinder to prevent gouging.
- Keep the cup wheel moving across the surface to prevent overheating.

CUP WHEEL DIAMOND CONTACT & SPEED

- The **more** diamond contact to the surface will create a smoother grind.
- The **less** diamond contact to the surface will be a more aggressive grind.
- The **faster** you move the grinder the less material the cup wheel will remove.
- The **slower** you move the grinder the more material the cup wheel will remove.

14" GENERAL PURPOSE BLADE BGPX14

**TURBO/CROWN
PREMIUM GRADE
ARBOR: 1" - 15MM**

MAX RPM: 5,460

The 15mm Crown Edged Turbo Segments provide fast cutting & extended life unlike any diamond blade on the market today.

The Double Tensioned Core will keep the blade running true, reducing the wobble effect of other blades.

This next generation of diamond blade will provide the speed & endurance you've been looking for.

THIS BLADE WILL CUT

- ▶ Cured Concrete
- ▶ Retaining Wall
- ▶ Concrete Block
- ▶ Reinforced Concrete
- ▶ Brick/Clay
- ▶ Sandstone
- ▶ Limestone
- ▶ Travertine

DIAMOND BLADES

TURF ACCESSORIES

INSTALLING SEAMS IN *Turf*

STEP ONE:
Compact the base

STEP TWO:
Roll out turf

STEP THREE:
Fold up the seamed edge & put Seams Right™ Tape below the edges

STEP FOUR:
Apply Seams Right™ Turf Adhesive to the Seams Right™ Tape

STEP FIVE:
Align edges while pressing turf into adhesive

STEP SIX:
Using a joint roller, firmly press turf evenly into the adhesive below

TURF NAILS

FEATURES

- ▶ 5" 40D Smooth Bright Steel Nail: Rusting starts in soil to secure turf better
- ▶ 6" 60D Spiral Galvanized Steel Nail: Resistant to rust making turf maintenance easier
- ▶ Commercial & Residential use
- ▶ Suitable for all soil types
- ▶ More durable than cheap alternatives that bend on installation

APPLICATION

- ▶ Turf
- ▶ Multi-use: Secure Edging, Tents & More

See page 96 for ordering information

SEAMS RIGHT™ TAPE

FEATURES

- ▶ High tensile & shear strength
- ▶ Specially designed for use with Seams Right™ Turf Adhesive
- ▶ Commercial & Residential use

APPLICATION

- ▶ Synthetic Turf
- ▶ Putting Greens
- ▶ Pet Areas
- ▶ Playgrounds
- ▶ Landscaping

ROLL SIZES OPTIONS

- ▶ 6"x100', 12"x50', 12"x100'

See page 96 for ordering information

SEAMS RIGHT™ TURF ADHESIVE

FEATURES

- ▶ Moisture Curing
- ▶ Weather Resistant
- ▶ Fast Setting
- ▶ Interior/Exterior
- ▶ VOC Compliant

APPLICATION

- ▶ Synthetic Turf
- ▶ Putting Greens
- ▶ Pet Areas
- ▶ Playgrounds
- ▶ Landscaping

See page 96 for ordering information

These Turf accessories will *seam* your turf the *right way*.

STEEL

THE IMPORTANCE OF STEEL WHEN SECURING YOUR PROJECTS

Staples, spikes, pins, & nails are essential, durable, resilient, & easy to install.

PAVER & LANDSCAPE

Landscape staples are critical to setting the fabric & geogrid in place, securing it to the ground, & preventing it from shifting over time.

During fabric installation, it is essential to overlap the fabric the appropriate amount & secure it with landscape staples. Pull the fabric tight to prevent weeds from growing.

Never overlap retaining wall geogrid.

EROSION CONTROL

Secure blankets, mats, & mesh with round top pins. Just like staples, pins are critical to setting the mats & mesh in place. The pins are designed to rust away over time without causing tire issues.

TURF

Our turf nails are the key to a professional-grade installation of artificial grass. They secure the turf to the ground, keep the edges in place, & ensure the turf stays put, resulting in a clean, professional finish you can take pride in.

HELPFUL TIPS

Use our staple setter or pin pounder to install the steel into your projects quickly & easily.

Use the StringAlong™ system to ensure your project is level when starting projects. When finishing the project with edging, always remember to use spikes to prevent lateral movement of the project.

SPIKES

FEATURES

- ▶ Smooth or Spiral
- ▶ Bright or Galvanized Finishes
- ▶ 10" & 12" Lengths

APPLICATIONS

- ▶ UltraLok Paver Rail™
- ▶ Paver Rail™
- ▶ Timber

See page 96 for ordering information

STAPLES

FEATURES

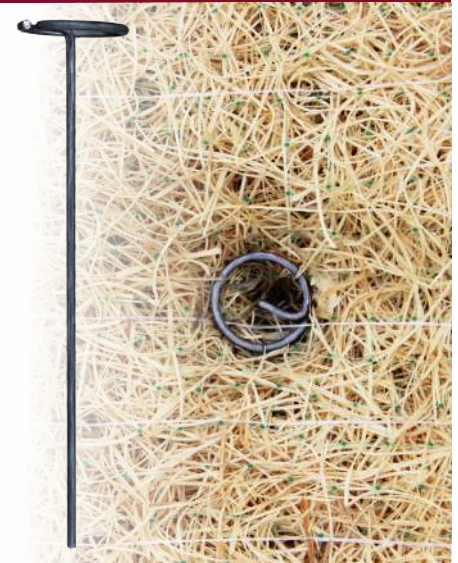

- ▶ Many sizes with convenient packaging options
- ▶ Bulk & Carton Options

APPLICATIONS

- ▶ Fabric
- ▶ Geogrid
- ▶ Erosion control product installation
- ▶ Irrigation
- ▶ Newly Laid Sod

See page 96 for ordering information

PINS

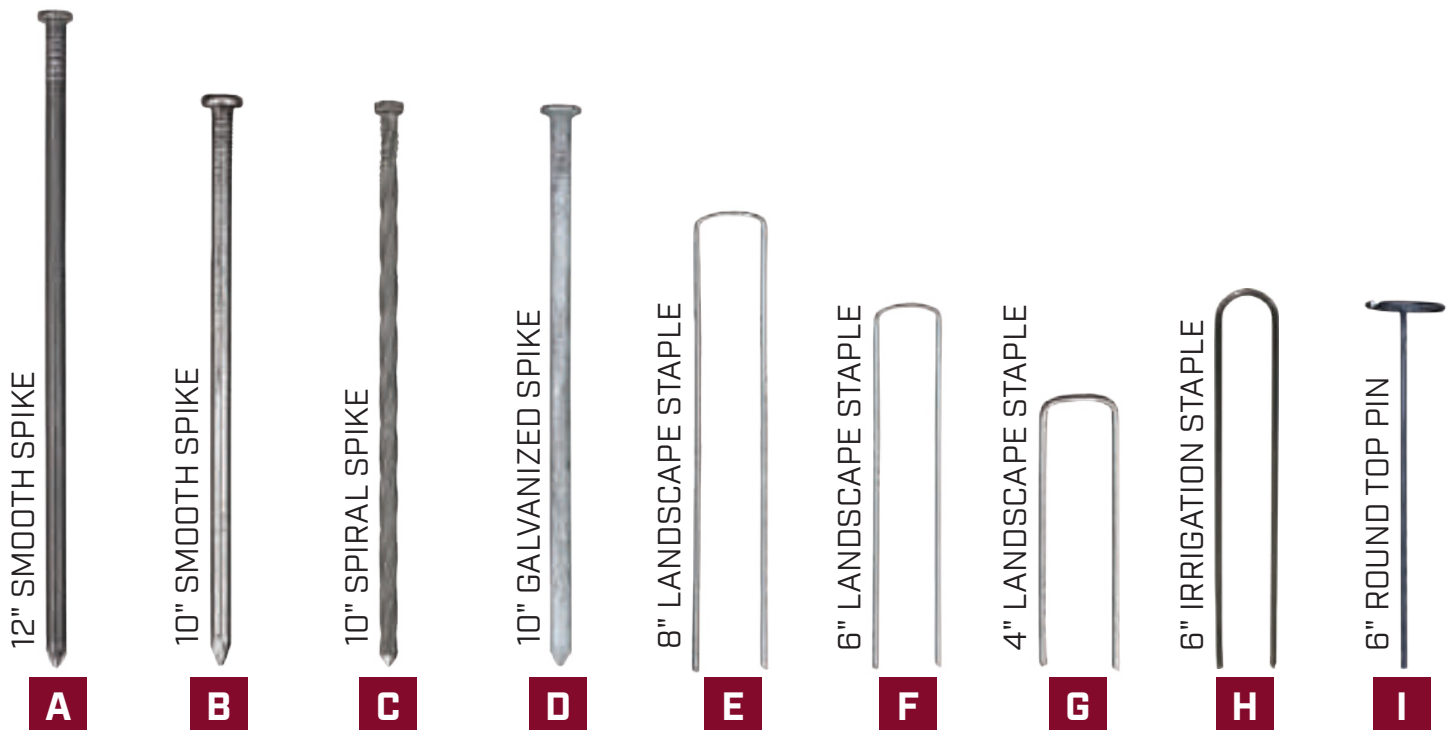

FEATURES

- ▶ Large Diameter Head
- ▶ 6" Length

APPLICATIONS

- ▶ Fabric
- ▶ Erosion control product installation
- ▶ Newly Laid Sod

See page 96 for ordering information

TURF NAILS

FEATURES

- ▶ 5" 40D Smooth Bright Steel Nail: Rusting starts in soil to secure turf better
- ▶ 6" 60D Spiral Galvanized Steel Nail: Resistant to rust making turf maintenance easier
- ▶ Commercial & Residential use
- ▶ Suitable for all soil types
- ▶ More durable than cheap alternatives that bend on installation

APPLICATION

- ▶ Turf
- ▶ Multi-use: Secure Edging, Tents & More

See page 96 for ordering information

STRINGALONG™ STAKES

FEATURES

- ▶ 24" tall, 3/4" round steel
- ▶ Holes for quick nailing
- ▶ Pointed Tip
- ▶ Reusable

APPLICATION

- ▶ Concrete & Masonry
- ▶ Setting Line Levels
- ▶ Use with SRW Products StringAlong™
- ▶ Plant Support
- ▶ Surveying

See page 96 for ordering information

STRINGALONG™ ARE PERFECT FOR: HARDSCAPING, SURVEYING, FENCING, CONCRETE & MASONRY

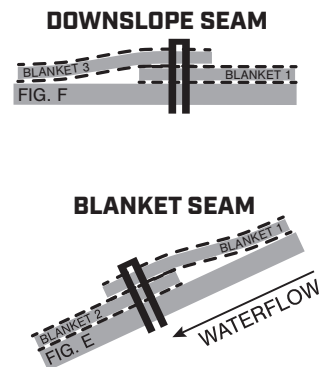

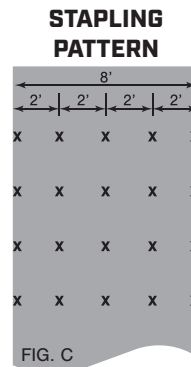

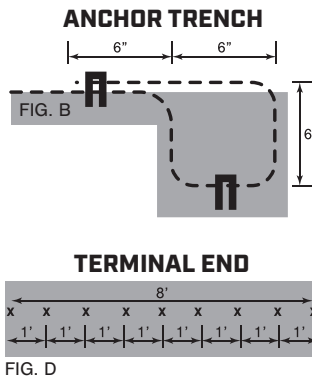

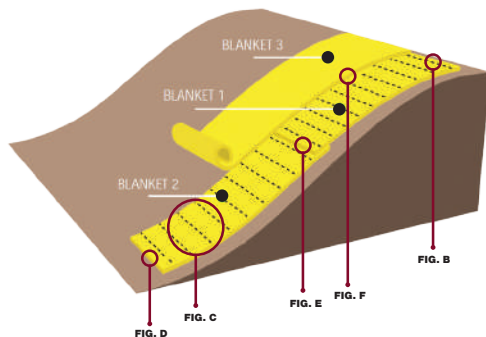

The SRW Products StringAlong™ collar makes raising & lowering elevations easy. It contains small teeth & a lock notch to ensure a tight string line. These collars are easily visible from a distance, unlike pencil marks & built to last!

Pair with StringAlong™ Stakes for best results.

EROSION CONTROL BLANKETS & STAPLE PLACEMENTS

Reference these diagrams for the correct staple placements upon installation of any of our erosion control blankets!

STRINGALONG™

FEATURES

- ▶ Makes raising & lowering the string-line elevations easy
- ▶ Easily visible from a distance, unlike pencil marks
- ▶ Take down the line & put it back up without measuring
- ▶ Ability to create three to four different lines from the same point
- ▶ Built to last from nylon with a brass insert & zinc coated thumbscrew
- ▶ Fits round stakes up to 1"

APPLICATION

- ▶ Hardscaping
- ▶ Surveying
- ▶ Fencing
- ▶ Concrete & Masonry

See page 96 for ordering information

PIN POUNDER

FEATURES

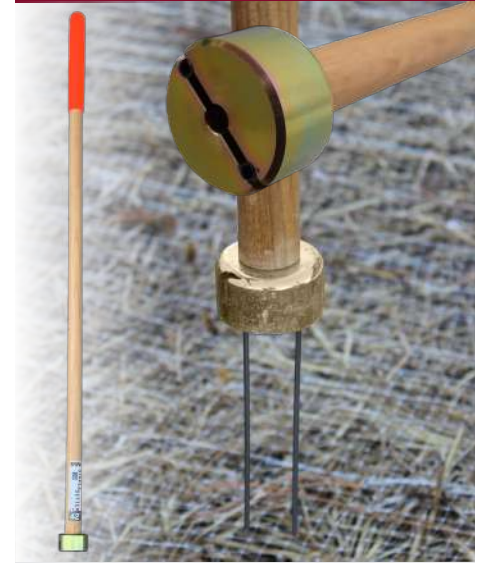

- ▶ Magnetic ends keep the pin in place

APPLICATION

- ▶ Use with round top pins

See page 96 for ordering information

STAPLE SETTER

FEATURES

- ▶ Magnetic ends keep the staple in place

APPLICATION

- ▶ Use with 11 gauge, 1" wide steel staples of any length

See page 96 for ordering information

GENERAL LANDSCAPE SPUNBOND

- PRIMARY USE**
- Planters
 - Under Rock/Mulch
 - French Drains
 - Drainfields

- BENEFITS**
- Water Flow
 - Easy to cut & install
 - Puncture Resistant
 - High-Strength
 - Permeable for Water & Nutrients

WEED CONTROL POLYSPUN

- PRIMARY USE**
- Weed Control
 - Under Rock/Mulch

- BENEFITS**
- Weed Barrier
 - Easy to Install
 - Permeable for Water & Nutrients

PREMIUM LANDSCAPE WOVEN/NON-WOVEN

- PRIMARY USE**
- Landscape Beds
 - Gardens
 - Patios
 - Sidewalks

- BENEFITS**
- High-Strength Woven
 - Non-Woven Permeability
 - High-UV Protection
 - Can Be Left Exposed
 - Planting Stripes
 - Weed Control
 - Permeable for Water & Nutrients

GROUND COVER WOVEN

- PRIMARY USE**
- Farming
 - Nursery
 - Landscape Beds
 - Gardens
 - Patios
 - Sidewalks

- BENEFITS**
- High-Strength Woven
 - High-UV Protection
 - Can Be Left Exposed
 - Planting Stripes
 - Weed Control
 - Permeable

STABILIZATION & SEPARATION WOVEN

- PRIMARY USE**
- All Paver Projects
 - Roads
 - Driveways
 - Retaining Wall Base

- BENEFITS**
- High-Strength
 - Project Longevity
 - Puncture Resistant
 - Permeable
 - Reduce Base Material
 - Won't Rot or Mildew
 - High Water Flow*
- *Only applies to PE350 Fabric

NON-WOVEN NEEDLE PUNCH

LS3™, NW4, NW4.5, NW6

- PRIMARY USE**
- Drainage
 - Filtration
 - General Landscaping
- BENEFITS**
- High-Water Flow
 - Soil Separation
 - Promotes Healthy Vegetation

NW7, EC8™, NW10, NW12, NW16

- PRIMARY USE**
- Rip-Rap
 - Erosion Control
 - Stabilization/ Separation
- BENEFITS**
- High-Water Flow
 - High-Strength
 - Prevents Soil Erosion

DON'T FORGET, LANDSCAPE FABRIC WORKS BEST WHEN LAID COMPLETELY FLAT & SECURED PROPERLY WITH STAPLES.

SRW Products offers quality 11 gauge staples in 4", 6", & 8" lengths. We also offer 6" round top Irrigation Staples to secure your drip irrigation.

Staples help secure overlapping area, to not separate during install.

FUZZY SIDE UP OR DOWN?

The Pro Plus geotextile fabric has a woven front & a non-woven back that are needle-punched together. For optimal weed control, install the fabric with the fuzzy side facing the ground. This configuration will allow for permeability & water flow, enabling your plants to have moisture & nutrients to thrive. The durable fabric will also provide a long-lasting weed barrier, reducing maintenance for the grounds crew & keeping the landscaping looking fresh & lush.

When installing mulch on a flat surface, hill, or incline, place the geotextile fabric with the fuzzy side facing up. This orientation will help stabilize the mulch, preventing it from shifting or moving around. The fuzzy texture will naturally grip & adhere to the mulch. Using a mulch stabilizer in addition to the fabric will further secure the mulch in place.

PREMIUM LANDSCAPE • WOVEN/NON-WOVEN

PPIV™

FEATURES

- ▶ Strength of a woven, permittivity of a non-woven
- ▶ Convenient sizes in folded widths
- ▶ Colored planting stripes make spacing quick & easy
- ▶ Retains moisture for plant health

UV RESISTANCE

UV resistance refers to a material's ability to withstand damage from ultraviolet (UV) light or sunlight. Exposure to UV rays, a major component of sunlight, can cause non-resistant materials & surfaces to fade or discolor.

Our weed barriers are designed with built-in UV inhibitors, making them less prone to deterioration from sunlight exposure & extending their usable lifespan. Enhancing UV protection in this way reduces the need for frequent replacements, promoting sustainability.

WHEN PURCHASING OUR FABRICS, GRIDS, & BLANKETS, REMEMBER THAT THE ACCESSORIES ARE EQUALLY IMPORTANT

When laying down our industry-leading fabric, blankets, & grid, it's crucial to secure them in place with their essential counterparts, SRW Products Staples & Pins. These accessories are indispensable for a successful installation. Use our Staple Setter & Pin Pounder to put the steel down quickly & with ease.

GEOGRID

Avoid Failed Walls

WHAT IS GEOGRID?

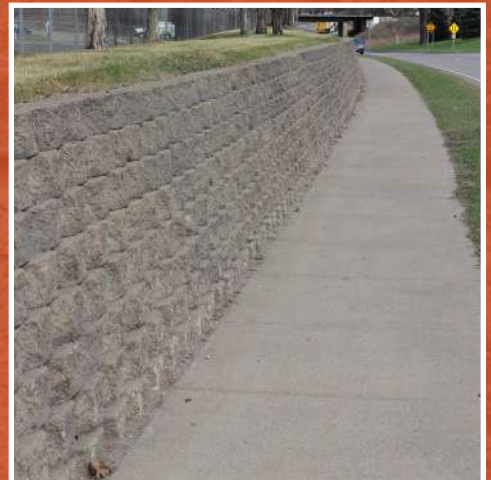

Retaining wall Geogrid strengthens retaining walls by reinforcing the soil behind the retaining wall block. This process is similar to how rebar reinforces concrete. The geogrid essentially 'locks' the soil in place, preventing it from shifting & increasing the overall stability of the wall. The reinforced soil becomes part of the retaining wall's weight & mass.

The height threshold for a retaining wall that does not require geogrid may be lower than you think, depending on the site configuration & soil type. Understanding this & using the correct type & amount of geogrid to prevent wall failure is crucial to the success of your project.

Our geogrids are the best choice to add strength & longevity to your hardscape projects while providing superior stress transfer.

WITH **NO** GEOGRID INSTALLED

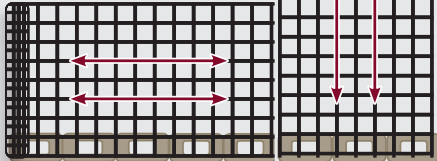

WITH PROPER GEOGRID INSTALLED

INSTALLING DIFFERENT GEOGRID TYPES

Bi-Directional (Universal & 3 Series)

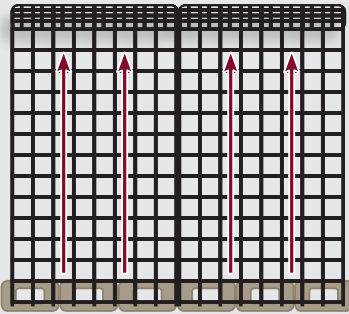

Can be rolled out either *perpendicular or parallel* to the wall.

Bi-Directional Installation Example:
parallel or perpendicular to wall

Uni-Directional (5-11 Series)

Must be rolled out *perpendicular* to the wall.

Uni-Directional Installation Example:
perpendicular to wall

Note: Follow the proper installation.
Never overlap Geogrid in retaining walls.

RETAINING WALL

BI-DIRECTIONAL

FEATURES

- ▶ Adds strength & longevity to retaining walls & steep slopes
- ▶ Easy-to-handle roll sizes
- ▶ Helps prevent wall failure
- ▶ Provides excellent load transfer

GEOGRID

ROAD BASE

FEATURES

- ▶ Provides excellent stress transfer on roadway projects
- ▶ Stabilizes Road Base
- ▶ Increases Road Life-span

APPLICATION

- ▶ Sub-Grade Stabilization
- ▶ Soft Soils Under Embankments

ROLL SIZES OPTIONS

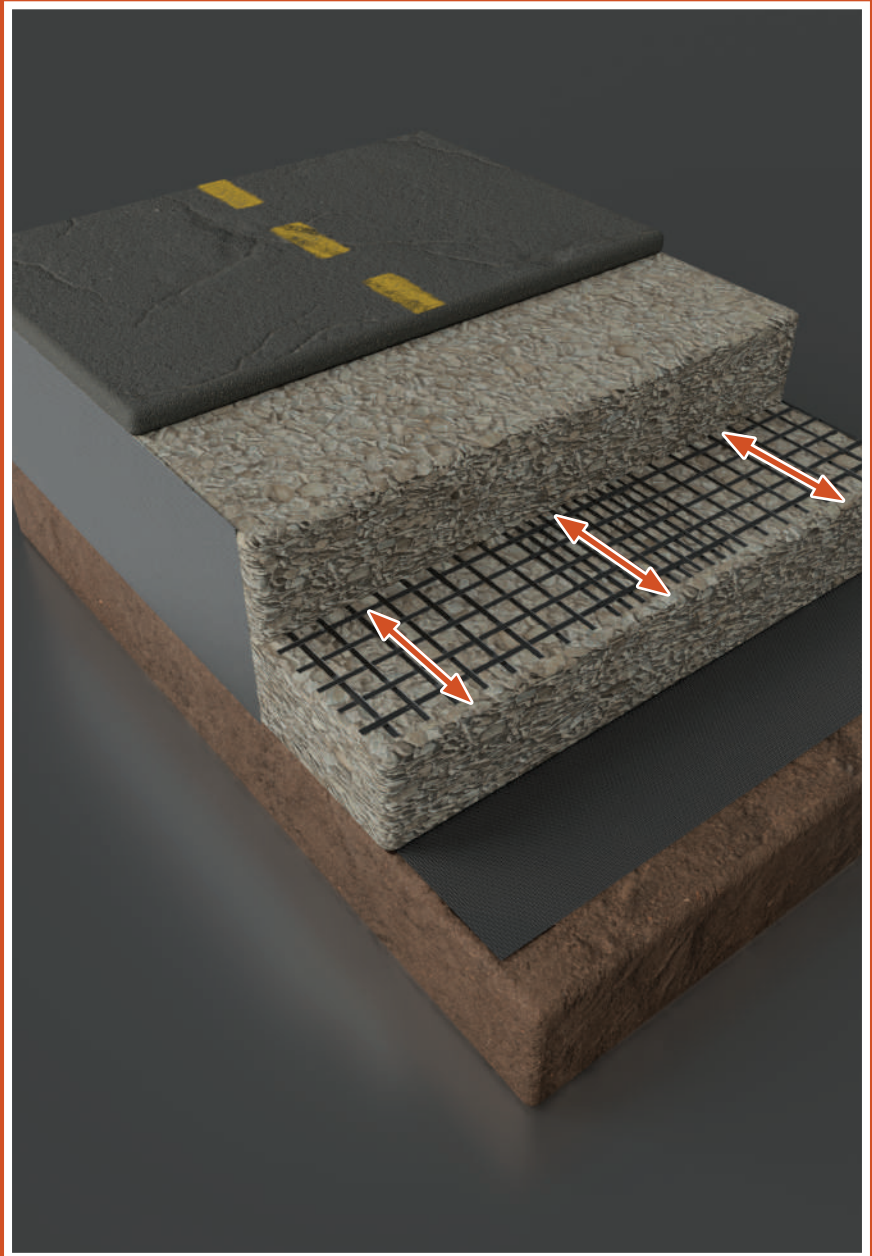

- ▶ **Type 1:** 12.9' x246'
- ▶ **Type 2:** 12.9' x164'
- ▶ **3D Grid T:** 12.9' x246'
- ▶ **3D Grid HT:** 12.9' x246'
- ▶ **3D Grid XL:** 12.9' x164'

See page 100 for ordering information

SAMPLE ROAD BASE GRID PLACEMENT

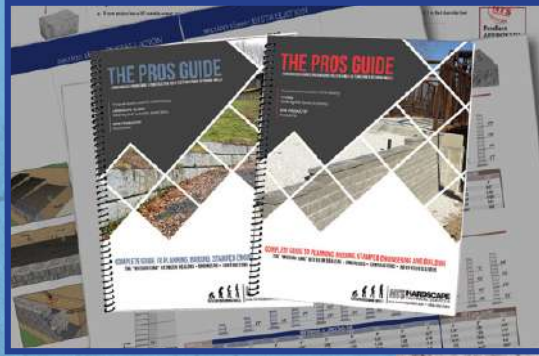

During installation, the Road Base Geogrid should be placed in the direction of travel. It needs to overlap at least 6". Always use staples to keep the grid lying flat.

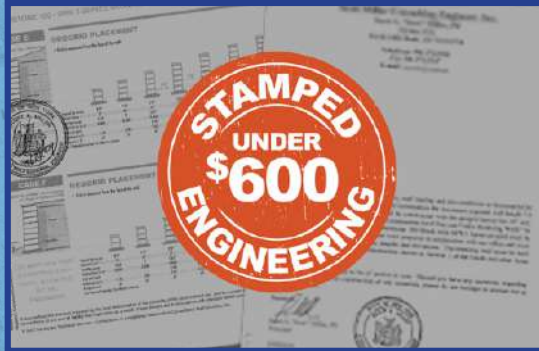

FACT VS MYTH

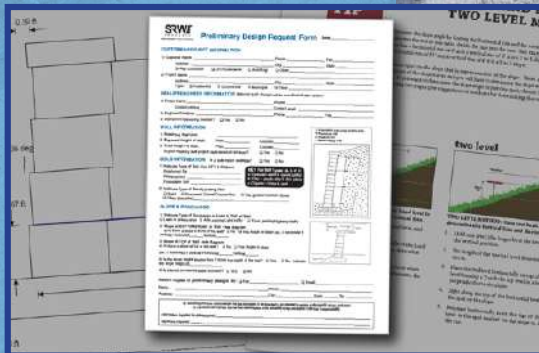

HTSTM HARDCAPE TECHNICAL SERVICES

THE PROS GUIDE
The “missing link” for planning, designing, installing, & obtaining Stamped Engineering.

STAMPED ENGINEERING
Save Big! Stamped Engineering for retaining walls for under \$600 & in as little as 7 days.

FREE PRELIMINARY DESIGN
Let HTS take the guesswork out of preparing estimations for retaining wall materials.

BASE REINFORCEMENT

WHY HEXABASE™?

LESS MAINTENANCE

Prevent pavers from sinking prematurely & wrecking the jointing sand. Stop potholes & mud issues in a business parking lot. Keep cart paths pristine at a golf course.

STORMWATER MANAGEMENT

Most parking lot designs require a detention/retention ponds for stormwater management. **HexaBase™ could remove the need for additional water mitigation**, saving you time & money.

HIDDEN FUNCTIONALITY

Hide a required fire apparatus lane with a **stabilized grass route**. Create an extra parking spot at your house hidden in grass.

COST SAVINGS

Save on base material required for a stable project. Eliminate cost for paving material. Much less stormwater management required. Reduce long-term maintenance. Lower chance for pavers settling, requiring new polymeric sand.

HEXABASE™

FEATURES

- ▶ 30x stronger than foam base replacement
- ▶ Save time & money on excavation, fill material, & long term maintenance costs
- ▶ 100% permeable: will not trap moisture like foam base replacement products
- ▶ Interlocking panels make a custom-sized base reinforcement
- ▶ Follows & conforms to standard guidelines for paver installations
- ▶ Designed to be used with traditional edging or concrete edging
- ▶ High resistance to freeze/thaw cycles
- ▶ Dimensions: 19.75" x 19.75" x 1.9" to cover 2.7 sq. ft.

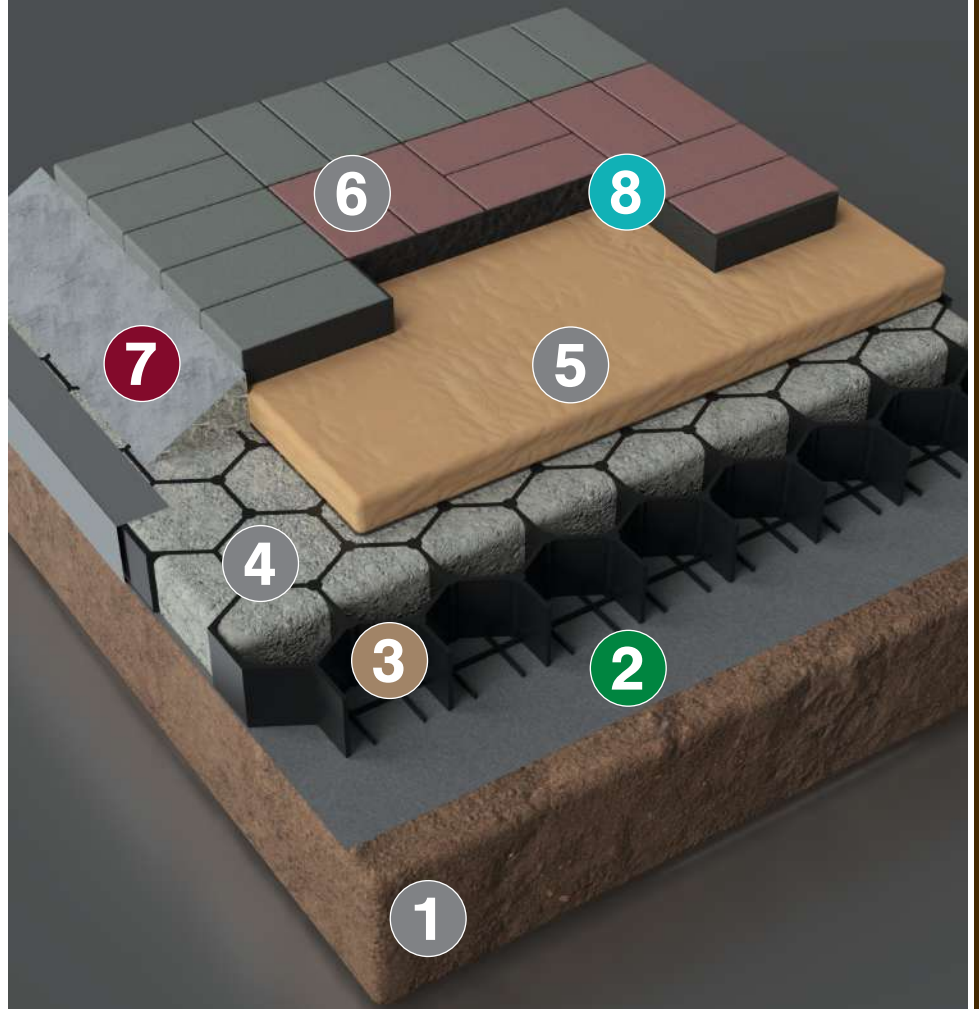

APPLICATION

- ▶ Standard Paver Installations
- ▶ Overflow Parking Area
- ▶ Grass/Gravel Driveways
- ▶ Fire Access Lanes
- ▶ Golf Course Cart Paths
- ▶ Barn Floor Erosion Control
- ▶ Hiking Trail Slope Stabilization
- ▶ Feedlot Erosion Control

See page 100 for ordering information

WALL SYSTEMS & ENGINEERING

SLEEVE-IT[®]

by STRATA

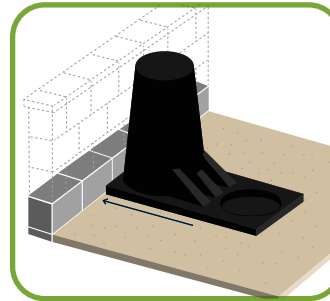

INSTALLATION GUIDELINES

STEP 1: SURFACE PREPARATION

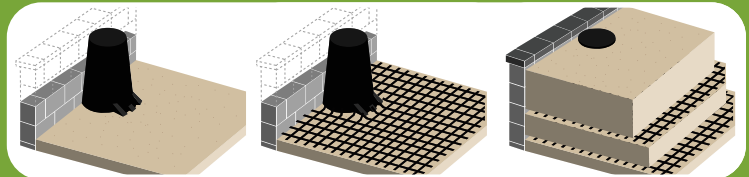

- Prepare a level surface area behind the wall face where the fence post is to be placed.
- The area should be approximately 16" wide by 32" deep.
- The elevation of the base of the Sleeve-It should be approximately 24" below the proposed top of the wall (not including the capstone).

STEP 2: SLEEVE-IT PLACEMENT

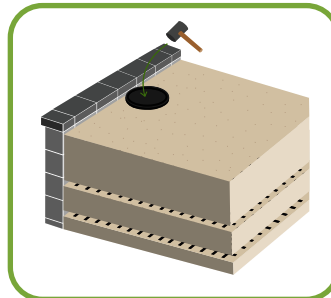

- Place the Sleeve-It unit on the level surface in an upright position with the front edge of the unit flush against the back of the wall.
- Multiple units should be spaced in accordance with fence specifications.
- Do not remove perforated lid until ready to place post.
- Do not step on perforated lid, as this could cause serious bodily injury.

STEP 3: BACKFILL PROCESS

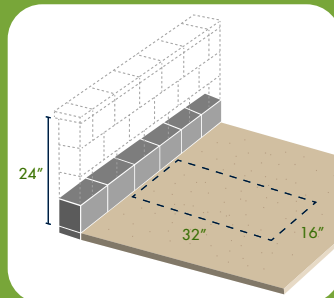

- Encapsulate & stabilize the Sleeve-It unit by placing & compacting sufficient backfill material layers as required.
- If geogrid is required, slit the geogrid perpendicular to the wall face just enough to fit around the base of the unit while ensuring that the geogrid remains properly attached to the wall.
- Continue the backfilling process as directed until the material reaches the top of the tower.

STEP 4: LID DETACHMENT

- Punch the perforated lid using a mallet or hammer to expose the inside of the Sleeve-It unit. Detached lids can be left inside the unit or discarded prior to pouring of infill material.

STEP 5: POST PLACEMENT

- Place post through the exposed area and rest on the flat ground surface area inside the Sleeve-It cavity.
- Ensure that the post is upright and level and hold in place while carefully pouring infill material, such as concrete, through the exposed cavity.
- Follow guidelines specified by infill supplier.
- Concrete is highly recommended as infill material.

WALL DRAIN PRO®

FEATURES

- ▶ A simpler & more efficient wall drain
- ▶ Visually Pleasing Design
- ▶ No round cuts needed for cylindrical style drains
- ▶ Works with blocks up to 8" tall

APPLICATION

- ▶ Retaining Walls
- ▶ Free Standing Walls
- ▶ Timber Walls

AVAILABLE IN

BLACK

GRAY

See page 100 for ordering information

EARTHWORKS™

FEATURES

- ▶ Works on standard concrete block
- ▶ Creates a mechanical connection with geogrid
- ▶ Saves Time & Money
- ▶ Provides Strength & Longevity
- ▶ Easy to use & install
- ▶ Works on any size wall

APPLICATION

- ▶ Retaining Walls

See page 100 for ordering information

SLEEVE-IT®

FEATURES

- ▶ Integrates stable fence footings into the support structure of a segmental retaining wall (SRW)
- ▶ Maximizes Land Use
- ▶ Stackable & Portable
- ▶ Easy to Install
- ▶ Made with recycled material
- ▶ Code compliant: IBC 1015.2, IBC 1607.8.1, & ASCE 7 4.5.1.

APPLICATION

- ▶ Retaining Walls

See page 100 for ordering information

WALL DRAIN PRO® VS REGULAR DRAIN

A simple plunge cut is all you need for a visually appealing and efficient solution for daylighting drain pipes in retaining wall systems. Comes in multiple color options to match the block. The back end easily snaps into a 4" drain tile.

STAMPED WALL ENGINEERING

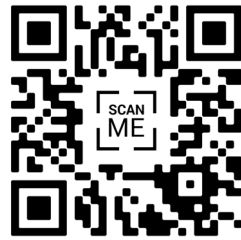

IN AS LITTLE AS 7 DAYS!

Building codes often require a building permit & structural wall design prepared by a qualified engineer for retaining walls as short as 2' in exposed height. Requirements will vary but Hardscape Technical Solutions makes this process quick & easy.

Design Table Stamped by Engineer

Letter Stamped by Engineer

To Find out more & connect with our engineers visit:
hardscapetech.com

ADDITIONAL INFORMATION

1. The number of cubic feet of concrete required to be placed in each course should be calculated by multiplying the length of the wall section by the height of the wall section by the thickness of the wall section.

2. The number of cubic feet of concrete required to be placed in each course should be calculated by multiplying the length of the wall section by the height of the wall section by the thickness of the wall section.

STEP 1 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 2 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 3 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 4 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 5 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 6 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 7 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 8 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 9 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

STEP 10 - PLAN WALL

A. Measure the length of the wall section to be built. (L)

B. Measure the height of the wall section to be built. (H)

C. Measure the thickness of the wall section to be built. (T)

D. Calculate the volume of concrete required. (V)

GRAY

See page 102 for ordering information

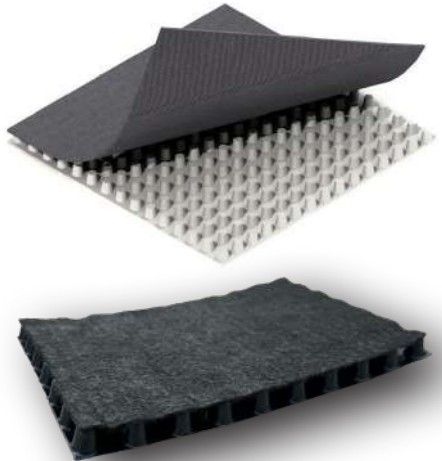

WALL DRAIN PRO® & FREE STANDING WALLS

When you have a free standing wall, use two of the Wall Drain Pro® faces, allowing water to drain off patio through the wall.

SHEET DRAIN

AMERICAN WICK DRAIN

FEATURES

- ▶ Superior alternative to pipe & stone drainage systems - 10x inflow capacity
- ▶ Reduce & redirect subsurface water
- ▶ Reduce subsurface hydrostatic pressure
- ▶ Creates continuous flow path to designated drainage exits
- ▶ Effective in vertical & horizontal applications
- ▶ Single or double sided available

APPLICATION

- ▶ Structural Walls
- ▶ Under Hardscape & Paving
- ▶ Lagging & Shoring Walls
- ▶ Shotcrete & Guniting Walls
- ▶ Embankments
- ▶ Synthetic Turf

See page 102 for ordering information

STRIP DRAIN

AMERICAN WICK DRAIN

FEATURES

- ▶ Superior alternative to pipe & stone drainage systems - 10x inflow capacity
- ▶ 70% less excavation (Excavation volume per foot for standard pipe & stone drain)
- ▶ Reduce & redirect subsurface water
- ▶ Reduce subsurface hydrostatic pressure
- ▶ Creates continuous flow path to designated drainage exits
- ▶ Fully wrapped dimple strip drain

APPLICATION

- ▶ Lawn & Turf Drainage
- ▶ Athletic Fields - Natural or Synthetic Turf
- ▶ Playgrounds
- ▶ Roadway Edge Drain
- ▶ Soil Consolidation

See page 102 for ordering information

E50 CORE

AMERICAN WICK DRAIN

FEATURES

- ▶ 12.5 gpm/ft water flow rate
- ▶ Low-profile design, 0.315" (8mm)
- ▶ 5,200 psf compressive strength
- ▶ Chemical, rot, & root resistant
- ▶ 50' rolls available in 6', 6.5', & 8' width

APPLICATION

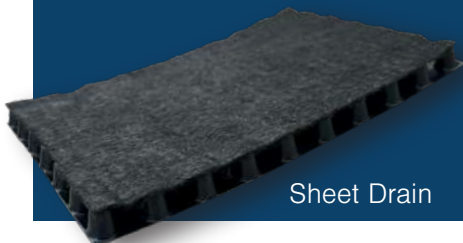

- ▶ Foundation Walls
- ▶ Structural Slabs

See page 102 for ordering information

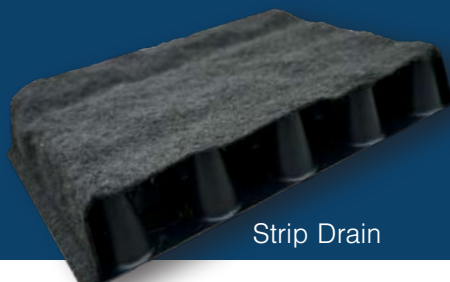

MADE IN THE USA!

American Wick Drain offers different geocomposite solutions for the drainage industry. Consider a strip drain instead of traditional pipe & stone drainage, reducing excavation by 70%.

EROSION CONTROL

STRAW BLANKETS

FEATURES

- ▶ Single or double sided-options
- ▶ Weed-Free Straw
- ▶ Erosion control up to one year
- ▶ Serves as a mulching layer
- ▶ Natural or Photodegradable

APPLICATIONS

- ▶ **Single Sided:** 3:1 Slope
- ▶ **Double Sided:** 2:1 Slope
- ▶ Cover Septic Systems
- ▶ Highway Slopes
- ▶ Embankments
- ▶ Shoreline Stabilization

ROLL SIZES OPTIONS

- ▶ **Single Sided:** 4', 8'
- ▶ **Double Sided:** 8'

See page 102 for ordering information

TURF REINFORCEMENT MAT

It can also be used around structures to help prevent washouts caused by rain coming off the roof. This is a permanent installation through which grass will still grow.

EXCELSIOR BLANKET

FEATURES

- ▶ 100% Aspen Wood
- ▶ Natural or Photodegradable
- ▶ Erosion control up to 12 months

APPLICATIONS

- ▶ Erosion Control Slopes
- ▶ Cover Septic Systems
- ▶ Highway Slopes
- ▶ Embankments
- ▶ Shoreline Stabilization

See page 102 for ordering information

COCONUT/STRAW BLANKETS

FEATURES

- ▶ 100% coconut, or straw & coconut mix options
- ▶ Erosion control up to 36 months
- ▶ Serves as a mulching layer
- ▶ Natural or Synthetic Net

APPLICATIONS

- ▶ Erosion Control Slopes
- ▶ **Double Sided 30% Coconut/ 70% Straw:** 2:1 Slope
- ▶ **Double Sided 100% Coconut:** 1:1 Slope
- ▶ Cover Septic Systems
- ▶ Highway Slopes
- ▶ Embankments
- ▶ Shoreline Stabilization

See page 102 for ordering information

TURF REINFORCEMENT MAT

FEATURES

- ▶ Provide excellent protection for seeds & newly sprouted grasses or plants
- ▶ Erosion control greater than 36 months
- ▶ Turf reinforcement for more severe slope applications

APPLICATIONS

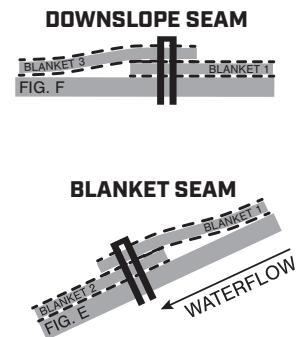

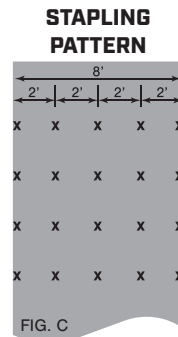

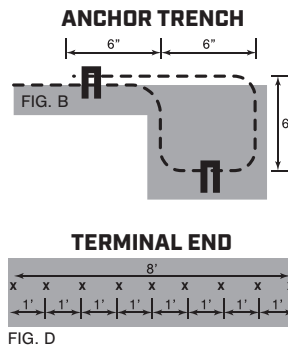

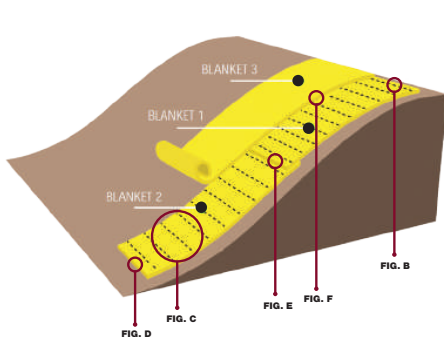

- ▶ Erosion Control Slopes
- ▶ 1:1 Slope
- ▶ Cover Septic Systems
- ▶ Highway Slopes
- ▶ Embankments
- ▶ Shoreline Stabilization

See page 102 for ordering information

EROSION CONTROL BLANKETS & STAPLE PLACEMENTS

Reference these diagrams for the correct staple placements upon installation of any of our erosion control blankets.

STRAW WATTLES

FEATURES

- ▶ Use these weed-free wattles over bare soil or in conjunction with erosion control blankets, on steep slopes, around drains for inlet protection or as perimeter control for job sites
- ▶ Helps stabilize slopes by slowing, spreading & filtering overland water flow
- ▶ Flexible & conforms to the surface
- ▶ Resists & prevents wash out in sloped ditches or slopes

APPLICATIONS

- ▶ Erosion Control Slopes
- ▶ Cover Septic Systems
- ▶ Highway Slopes
- ▶ Embankments
- ▶ Shoreline Stabilization

See page 102 for ordering information

SILT SOCK

FEATURES

- ▶ Environmentally friendly erosion control for wetlands, waterways & general areas under construction
- ▶ Filters 90% of sediment from runoff
- ▶ Easy Install, Reusable
- ▶ No equipment needed to install
- ▶ Resists & prevents wash out in sloped ditches or slopes

APPLICATIONS

- ▶ Erosion Control Slopes
- ▶ Cover Septic Systems
- ▶ Highway Slopes
- ▶ Embankments
- ▶ Shoreline Stabilization

See page 102 for ordering information

STRAWMAX

FEATURES

- ▶ Comprised of chopped agricultural straw & natural guar gun tackifier
- ▶ Prechopped for easy hand spreading
- ▶ Covers up to 500 sq. ft. per bale
- ▶ Safe for use around home, children & pets

APPLICATIONS

- ▶ Use for touchups or along blanketing
- ▶ Prevent Soil Erosion
- ▶ Improve Seed Germination

See page 102 for ordering information

BEFORE SPREADING OUT STRAWMAX MAKE SURE:

1. Prepare & seed the project before spreading StrawMax.
2. Thoroughly spread out StrawMax over project area.
3. Wet down the StrawMax immediately after installation.

1. PREPARE

2. SPREAD

3. WATER

SILT FENCE & STAKES

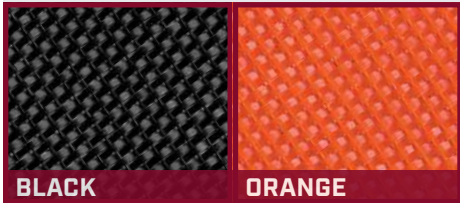

FEATURES

- ▶ Silt Fence is a woven fabric that temporarily controls sediment on construction sites
- ▶ Meets most DOT specs
- ▶ Stakes are pointed for easy install
- ▶ Protects water quality in nearby streams, rivers & lakes from sediment in storm water runoff
- ▶ Silt Fence comes with pre-attached posts

APPLICATIONS

- ▶ Around Construction Sites

See page 102 for ordering information

BLACK

ORANGE

DRAINFIELD

FEATURES

- ▶ Commercial-grade polyester geotextile drainage fabric
- ▶ High Puncture Resistance
- ▶ High Water Flow
- ▶ Excellent Filtration

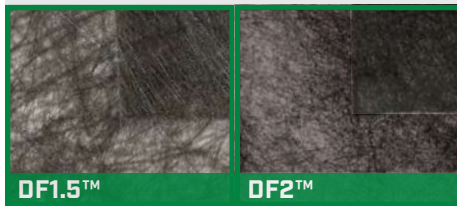

APPLICATIONS

- ▶ Septic Systems
- ▶ Drainfields
- ▶ French Drains

ROLL SIZES OPTIONS

- ▶ **DF1.5:** 3', 4', 5', 6', 12'
- ▶ **DF2:** 3', 4', 6', 12'

WHEN PURCHASING OUR FABRICS, GRIDS, & BLANKETS, REMEMBER THAT THE ACCESSORIES ARE EQUALLY IMPORTANT

When laying down our industry-leading fabric, blankets, & grid, it's crucial to secure them in place with their essential counterparts, SRW Products Staples & Pins. These accessories are indispensable for a successful installation. Use our Staple Setter & Pin Pounder to put the steel down quickly & with ease.

Pg 49 & 51

EROSION CONTROL

Silt Fence & Stakes
Keep the sediment at bay

JUTE MESH

FEATURES

- ▶ Great for environmentally sensitive erosion control applications
- ▶ Biodegradable blanket woven from spun jute yarns
- ▶ Typically provides 6 - 9 months of erosion control
- ▶ Up to 70 - 75% open area
- ▶ Large aperture size to minimize harm to wildlife

APPLICATIONS

- ▶ Recommended slope is 3:1
- ▶ Slope protection
- ▶ Re-vegetation

See page 102 for ordering information

ROCK LOG

FEATURES

- ▶ A woven monofilament tube sock filled with rock or aggregate to minimize runoff on hard surfaces or landscape areas
- ▶ First & last line of defense for filtration in roadways
- ▶ Designed to be filled on site

APPLICATIONS

- ▶ Hard Surfaces
- ▶ Protect Curb Inlets
- ▶ Provides a Barrier Against Sediment Washout

See page 102 for ordering information

TURBIDITY BARRIER

FEATURES

- ▶ Recommended for areas exposed to light winds
- ▶ Meets DOT specifications
- ▶ Tough Guy® Technology

APPLICATIONS

- ▶ Construction Sites
- ▶ Ponds
- ▶ Shallow Lakes
- ▶ Small Streams/Marshes
- ▶ Current velocities of less than one foot per second

OPTIONS

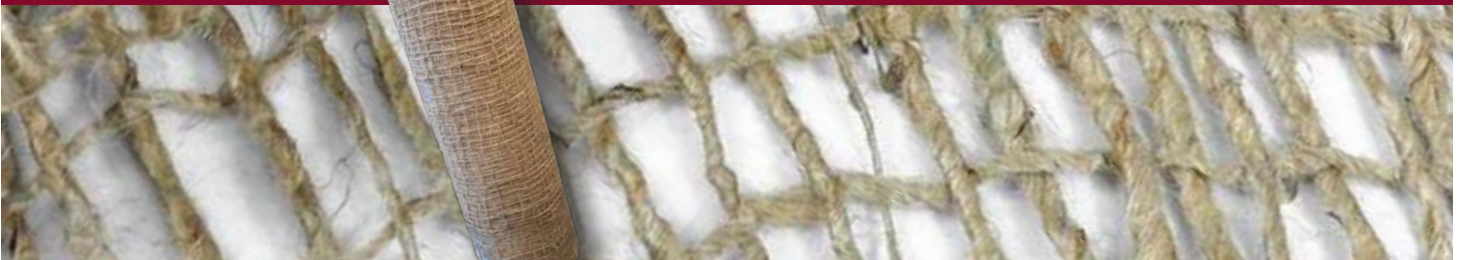

- ▶ **Type 1:** 3', 5', 10'
- ▶ **Type 2:** 3', 5', 10'
- ▶ **Type 3:** 3', 5'
- ▶ Accessories

See page 103 for ordering information

JUTE MESH

The open area in the Jute Mesh yarns allow enough space for small animals to pass through safely.

FIND OUT MORE AT
SRWPRODUCTS.COM

FEATURES

- ▶ Soil erosion during construction can find its way in to the city's water system through storm sewers, grates & inlets. Because of the potential danger to our environment & sewer systems, the government has required contractors to use a professional-grade inlet filter & to erect their own sediment control solutions & measures when starting any new project. SRW Products partners with Dandy Products to ensure your small & large projects are protected.
- ▶ Unique Patented Designs
- ▶ Easy-to-see bright orange solutions
- ▶ Easy to install, maintain, inspect & reuse

APPLICATIONS

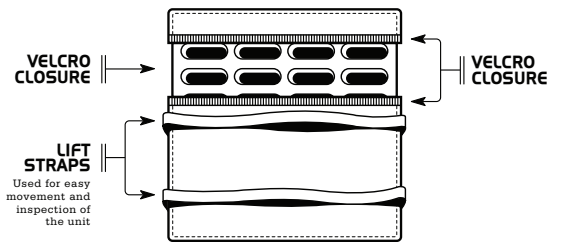

- ▶ Around Curbs & Gutter Inlets

Contact your local Territory Sales Representative for custom sizes or overflow ports.

PLANT CARE

BURLAP

NEW

FEATURES

- ▶ 100% Natural
- ▶ Biodegradable
- ▶ Interior/Exterior Application
- ▶ Retains Moisture

APPLICATIONS

- ▶ Plant Protection
- ▶ Wind Screen
- ▶ Tree Wraps
- ▶ Erosion Control
- ▶ Seed Germination
- ▶ Arts and Crafts

ROLL SIZES OPTIONS

- ▶ **Burlap:** 3', 4', 6'

See page 103 for ordering information

New Product

Burlap is a versatile & eco-friendly fabric with numerous uses in gardening, landscaping, & various crafts. It is known for its durability, breathability, & affordability. Burlap can be used for erosion control, plant protection, wind screens, wrapping root balls, preventing winter burn, & shading areas from the harsh summer sun. Due to its wide range of practical applications, burlap is commonly used in nurseries & garden centers for landscaping, & plant protection by wrapping leaves & branches. Burlap protects trees & bushes from transportation stress, reducing wind damage & moisture loss in transit.

TREE WATERING BAGS

FEATURES

- ▶ Protect your tree investments & optimize growth with slow release
- ▶ Holds up to 20 gallons
- ▶ 5-8 hour water release
- ▶ Commercial Grade Material
- ▶ No tools required for installation
- ▶ Easy to Install
- ▶ Save Time & Money

APPLICATIONS

- ▶ Ideal for tree trunks up to 4" in diameter or chain multiple bags together for larger trunks

See page 103 for ordering information

TREE WATERING RINGS

FEATURES

- ▶ Protect your tree investments & optimize growth with slow release
- ▶ Holds up to 15 gallons
- ▶ 6+ hour drip time
- ▶ Two valves for even distribution
- ▶ Reduces transplant shock & drought stress

APPLICATIONS

- ▶ Ideal for tree trunks up to 6" in diameter

See page 103 for ordering information

SRW GROW BAG™

FEATURES

- ▶ Adds Growing Space
- ▶ Easy to move around
- ▶ Cost Effective
- ▶ Prevents Over-Watering
- ▶ Regulates Temperatures
- ▶ Easy to Use
- ▶ Collapsible for Storage
- ▶ Reusable

APPLICATIONS

- ▶ Fruits & Vegetables
- ▶ Commercial Crops
- ▶ Plants & flowers
- ▶ Herbs
- ▶ Cannabis

COVERAGE

- ▶ 5 gal: 0.75 cu. ft. soil
- ▶ 10 gal: 1.5 cu. ft. soil
- ▶ 15 gal: 2.25 cu. ft. soil
- ▶ 20 gal: 3 cu. ft. soil

See page 103 for ordering information

SRW GROW BAGS™

SRW Grow Bags™ are great for when you want to garden but are confined to tight spaces like rentals or balconies. This lightweight bag allows you to easily move your plants to where they can grow best. Whether you are a first-timer or an experienced gardener, SRW Products Grow Bags™ are here to help.

ACCESSORIES

TURNING A JOB FOR *two* INTO A JOB FOR *one*

SHUT OFF

Start & stop water flow with ease. Also acts as a flow control if water pressure is too high.

QUICK CONNECT

Quickly switch from Jet Sweep™ to a sprayer nozzle if needed throughout your job.

JET Sweep™

NEW PRODUCT

NOZZLE

Fan nozzle provides a wide slurry to assist in WetLok™ installation or a cleaning job.

6 MIL. POLY SHEETING

FEATURES

- ▶ Redirect water flow
- ▶ Easy to cut, Easy to use
- ▶ Tear Resistant
- ▶ Full weed control from underneath

APPLICATION

- ▶ Runoff Mitigation
- ▶ Moisture retention for concrete curing
- ▶ Project protection from rain

See page 103 for ordering information

STRETCH WRAP

FEATURES

- ▶ SRW Products offers a range of stretchable, highly elastic plastic film that keeps items tightly bound.

See page 103 for ordering information

JETSWEEEP

FEATURES

- ▶ Quickly attach to a variety of handled tools like Push Brooms, Squeegees, Deck Brushes, & more.
- ▶ Sturdy, all-metal design
- ▶ Works with any garden hose
- ▶ Quick-connect adapters for easy tool-swapping
- ▶ Shut-off valve for convenience

APPLICATIONS

- ▶ WetLok™ Installation
- ▶ Patio Cleaning with SRW Products Cleaners
- ▶ Garage Floors
- ▶ Decks
- ▶ Pool Deck
- ▶ Driveway
- ▶ Siding
- ▶ Outdoor Jobs

FABRIC DISPLAY

FEATURES

- ▶ Dimensions: 72" H x 28 1/4" W x 27" D
- ▶ Quality heavy-duty construction, to easily handle SRW Products fabric & geogrid
- ▶ Four metal shelving arms to conveniently hold rolls
- ▶ Sign Channel to hold product labels (*ordered separately*)
- ▶ Powder coat finish: semi-gloss black
- ▶ Header Sign Set Conveniently packaged with the display

Contact your Territory Sales Representative today about the qualifications required to get a display.

See page 103 for ordering information

ADHESIVE DISPLAY

FEATURES

- ▶ Dimensions: 67" H x 16" W x 16" D
- ▶ Quality heavy-duty construction, to easily handle SRW Products adhesives
- ▶ Two Wire Shelves
- ▶ Bottom Storage Self
- ▶ Sign Channel to hold product labels (*ordered separately*)
- ▶ Powder coat finish: semi-gloss black
- ▶ Header Sign Set Conveniently packaged with the display

RESOURCES Print & Online

We have tools available to you 24/7 on SRWProducts.com to aid in getting projects done right. Find tech data sheets, safety data sheets, application charts, expanded application instructions, how-to videos, & more.

Get ready to engage & excite your customers with our marketing collateral. We supply materials such as flyers, brochures, & application charts. Plus, we offer interactive sample-sized products, fabric, & geogrid cards that you can touch, test, & share, making the experience more personal. Contact your Territory Sales Representative or Customer Service to learn more.

Personalize your store's branding with our custom co-branded signage tailored to meet your specific needs. Whether you're looking for banners, wall signage, or floor graphics, we've got you covered. SRW Products delivers high-quality, personalized signage that aligns with your store's unique identity. Reach out to your Territory Sales Representative today to explore more.
