

HEARTWOOD FIREPIT KIT

- Kit Includes: 12 Rosetta® Heartwood Blocks | Steel Firepit Insert

Base Material Note: When installing the Heartwood Firepit, fill the interior base with sand or small stone up to just above the steel insert. This provides a stable base, helps dissipate heat, and minimizes the chance of cracking or shifting during use.

Do not leave the area beneath the steel insert hollow. Insufficient base fill can lead to excess heat transfer, uneven support, or damage to the block structure over time.

Authentic Texture. Easy Assembly. Endless Backyard Vibes.

The Heartwood Fire Pit Kit is a rustic showstopper—crafted with twelve long-format pieces from our signature Rosetta® Heartwood line. Designed to mimic hand-hewn timber with rich textures and dimensional detail, each block brings the warmth of natural woodgrain with the durability of wetcast concrete.

Color: Charcoal or Westwood Brown
SKU# 490193 Westwood Brown
SKU# 491180 Charcoal

Steel Insert Weight: 130 lbs
