

Rockwood® Premier 6 Modern Edge™ Retaining Wall Block

ROCKWOOD
Premier

Premier 6 Modern Edge™ delivers elegant style with the proven performance of Rockwood's Premier Wall Series. Engineered with Max Core™ technology that creates exceptional shear resistance and superior grid connection strength—in a lightweight and easy-to-handle 44 lb. SRW unit. Whether you're designing a backyard retreat or a striking public plaza, Premier 6 Modern Edge provides both structural performance with the look of hand-hewn stone.

Rockwood® Premier 6 Modern Edge™ Retaining Wall Block

Premier 6's revolutionary block design makes it the most efficient .75 sq. ft. SRW block ever. At just 44 lbs., it beats all other block systems for freight efficiencies and ease of construction.

Premier 6 Modern Edge locks

Dimensions: 18" W x 12" D x 6" H

Weight: 44 lbs.

Area: 0.75 sq. ft.

Setback: 0.50" (4.7°)

- Designed with Max Core™ Technology for connection strength and resistance to shear from continuous stone columns
- Reduced unit set-back
- Lightweight for ease of handling, reducing fatigue
- Increased freight efficiencies
- 30" max. gravity wall height, suitable for walls up to 10 ft. in height with proper engineering

Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information.

Bottom, rear anchor bar creates an automatic 4.7° setback.

Large, open cores fill quickly and easily with drainage material to form "stone-columns", adding support and stability to the wall.
